

Holmstrup Arborvitae

(*Thuja occidentalis* 'Holmstrup')

Evergreen Tree

6' - 8' High

2' - 3' Spread

Growth Slow

4 + Hours

Zone 3 - 8

Holmstrup Arborvitae is an exceptional evergreen shrub cultivar, highly sought after for its impressive ornamental qualities. This slow-growing conifer is densely branched with a conical or columnar growth habit. Holmstrup Arborvitae releases a fragrant, resinous scent when bruised or crushed, adding to its allure. A great plant to use as a hedge or privacy screen.
