

Spring Symphony Foam Flower

(*Tiarella* 'Spring Symphony' USPP12397)

Perennial

6" - 12" Tall

6" - 12" Wide

**Bloom Time:
Spring**

0 - 4 Hours

Zones 4 - 9

Spring Symphony Foam Flower is known for its fresh spring beauty and finely detailed foliage. Forming a tidy mound, its maple-shaped leaves emerge bright green with deep, burgundy-black midribs that create a striking, lacey pattern even before the blooms appear. In mid-to late spring, the plant sends up airy wands of starry, pale pink to white flowers that dance above the foliage, giving the plant a soft, cloud-like presence in the shade garden.
