

Eastern Hemlock

(Tsuga canadensis)

Evergreen Tree

40' - 70' High

25' - 35' Spread

Growth Moderate

0 - 4 + Hours

Zone 3 - 7

Eastern Hemlock is a soft needled evergreen that can grow in full sun or full shade. It will produce small cones but usually not until 20 years of age. This versatile evergreen is a great option for privacy or as a backdrop for shrubs and perennials.
