(*Vitis labrusca* 'Niagara')

**Fruit**

**15' - 20' High**

**15' - 20' Spread**

**4 + Hours**

**White Fruit  
Wine Grape**

**Zone 5 - 8**

Niagara Grape is a classic American table grape celebrated for its large, juicy clusters and reliable productivity. This vigorous, deciduous vine produces broad, lobed green leaves that provide lush coverage and a rich backdrop for its fruit. In mid- to late summer, it bears generous bunches of pale green to golden grapes with a sweet, slightly tart flavor, perfect for fresh eating, juicing, or preserves.
