

# Midnight Sun™ Weigela

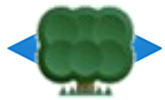

(*Weigela florida* 'Verweig9' USPP35146)

**Shrub**

**12" - 18" High**

**12" - 18" Spread**

**4 + Hours**

**Vibrant Fall Color  
Reblooming**

**Zone 4 - 8**

Midnight Sun™ Weigela blooms pink flowers heavily in the spring and will continue blooming sporadically throughout the growing season. The new growth is a reddish/orange tint and turns a blazing orange red in the summer and intensifies throughout the fall. You should prune Weigela after the first bloom in late spring/early summer. This compact variety is great for a small hedge or to plant along walkways.
