

Brandywine Maple

((*Acer rubrum* 'Brandywine')

Shade Tree

35' - 40' High

20' - 30' Spread

**Growth
Moderate**

4 + Hours

**Seedless
Red Fall Color**

Zone 4 - 8

The Brandywine Maple is a seedless variety of red maple, that has vibrant fall foliage that begins red and turns a purple-red. It has a medium growth-rate and is a smaller variety of maple, which makes it perfect for most residential yards. Brandywine is the perfect choice if you want gorgeous fall foliage but don't have the space needed for a larger tree.
