

Paperbark Maple

(Acer griseum)

Ornamental Tree

20' - 30' High

20' - 30' Spread

**Growth
Moderate**

4+ Hours

**Spring Blooming
Understory**

Zone 5 - 8

The Paperbark Maple has features you can't find on any other maples. Though named for its one of kind bark, it has a plethora of distinctions that separate it from its maple brethren, such as wavy branching patterns, self styled maple leaves and upright growth habit. The green foliage will turn a bright red in the fall.
