

Coralburst® Crabapple

(*Malus 'Coralcole'*)

Ornamental Tree

8' - 12' High

10' - 15' Spread

**Growth
Moderate**

4 + Hours

**Spring Blooming
Vibrant Flowers**

Zone 3 - 7

During the early spring, the Coralburst® Crabapple becomes a spectacle of color and fragrance. The charming coral-pink blooms emerge in dense clusters, covering the branches in a breathtaking display. After the flowering season the tree has glossy green foliage that turns to hues of gold and orange. Fruit holds on through colder months providing forage for wildlife. A great compact tree for small spaces in the landscape.
