

# Dakota Sunspot Potentilla

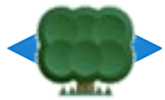

*(Potentilla fruticosa 'Dakota Sunspot')*

**Shrub**

**2.5' - 3' High**

**3' - 3.5' Spread**

**4 + Hours**

**Compact Shrub  
Bright Blooms**

**Zone 2 - 6**

Dakota Sunspot Potentilla is a compact shrub with an abundance of 1" golden-yellow flowers from June until frost, very hardy, tough and easy to grow in cold climates, adaptable to most conditions. A great choice for low hedges or foundation plantings.
