

Dwarf Purple Leaf Plum

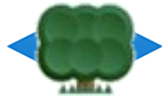

(*Prunus cistena*)

Shrub

6' - 8' High

4' - 6' Spread

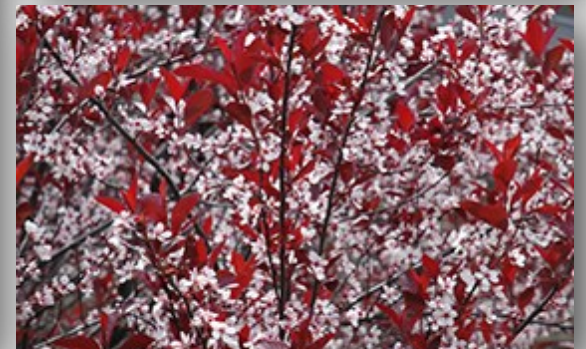

4 + Hours

**Spring Blooms
Burgundy Foliage**

Zone 3 - 8

Dwarf Purple Leaf Plum blooms in the early spring, before the leaves emerge, with abundant clusters of fragrant, pink flowers that cover the branches. These blossoms add a lovely contrast against the dark purple foliage. Its compact size, vibrant purple foliage, and abundant spring blooms make it a popular choice for adding color and interest to smaller gardens, courtyards, and landscape beds.
