(*Quercus muehlenbergii*)

Iowa Native

Shade Tree

40' - 60' High

50' - 60' Spread

**Growth
Moderate**

4 + Hours

**Unique Foliage
Hardwood**

Zone 5 - 7

The Chinkapin Oak is a tough fast growing oak with unique leaves. It is in the white oak family, which means it is a strong long lasting tree. This American native is known for it's glossy leaves and small, less than one inch acorns. This classic American Oak will do well in most plantings sites and look great too.
