

# Regal Prince Oak

(*Quercus robur* x *bicolor* 'Long')

**Shade Tree**

**30' - 50' High**

**10' - 20' Spread**

**Growth  
Moderate**

**4 + Hours**

**Columnar Shape  
Yellow Fall Color**

**Zone 4 - 9**

Regal Prince Oak is a great tree for smaller areas. The columnar shape won't take up a lot of space, but will still provide shade. Its leathery green leaves turn yellow in the fall. Being an oak this tree is sure to last generations to come. It will also retain its leaves throughout most winters, and drop them in the spring.
