

Wood's Purple Aster

(*Symphyotrichum* 'Wood's Purple')

Perennial

12" - 18" Tall

18" - 24" Wide

**Bloom Time:
Fall**

4 + Hours

Zones 4 - 8

Wood's Purple Aster is a dense, mounding perennial which have attractive, fine textured foliage. Its light purple, yellow-centered daisy-like flowers bloom in summer, continuing well into fall, at a time when few plants are in color. It is an excellent dwarf aster for border fronts and small gardens. It is very deer resistant but rabbits on the other hand love them!
