The built-in charger is located above the battery, easy charging after opening the battery cover.

Creep Button

Creep/Slow speed button for safe and easy operation esp. in confined spaces such as steering in the trailer.

Big capacity Maintenance-free Battery

Equipped with 160Ah maintenance-free battery, with working time 12hours according to the VDI calculation, or for continuous work of 7 hours.

There are many advantages comparing to Lead-acid battery:

No acid refilling maintenance

Less cable corrosion with the connection pile head

More protection on over-charging

Bigger initiating current

Longer electricity storage time

More environment-friendly

Bigger ground clearance

Bigger ground clearance, for easy operation for uneven grounds with potholes or small obstacles such as small thresholds or on trailers with lifting gates.

Robust and Reliable Design

The robust chassis with the strong 8mm thick apron protects the truck and the components against mechanical impacts from the outside. The steel battery cover ensures the battery well protected. IP54 protection for the controller for safe operation for delivery applications where the dust and water droplets is common.
