

- Our technicians will complete two treatments two weeks apart. The technician will treat the entire home, we do not “bomb or fog” it’s a treatment with a fine fan mist. Our product kills the egg, larvae and the flea.
- Pets must be treated with a safe product in conjunctions with our treatment.
- Everyone must be out of the home for 5 hours, including pets.
- We ask that you complete a thorough vacuuming before our treatment and continue to vacuum during the process.
- Vacuum bags should be discarded, and canisters should be emptied outside and canisters then washed in hot soapy water.
- Wash any blankets, or clothing that may have been on the floor in contact with fleas.
