<b>Acronym</b>	<b>Definition</b>
CP-29	Commissioner Policy 29, Environmental Justice and Permitting
DAC	Disadvantaged Communities
MSW	Municipal Solid Waste
NOCA	Notice of Complete Application
NYSDEC	New York State Department of Environmental Conservation
PEJA	Potential Environmental Justice Area
PPP	Public Participation Plan
SWMF	Solid Waste Management Facility

## I. INTRODUCTION AND OBJECTIVE

This Public Participation Plan (PPP) has been prepared by Sterling Environmental Engineering, P.C. (STERLING) on behalf of the LaMela Sanitation Service, Inc. (hereinafter referred to as “applicant”) to fulfill and comply with the requirements of New York State Department of Environmental Conservation (NYSDEC) **Commissioner Policy 29, Environmental Justice and Permitting (CP-29)** for their proposed transfer station capital improvement project that requires a modification to their existing Solid Waste Management Facility (SWMF) Permit and which has been determined by NYSDEC to potentially impact one or more Potential Environmental Justice Area (PEJA) and/or Disadvantaged Communities (DAC), (See Figure 1).

This PPP has been developed in accordance with the procedures established in CP-29 Section V.D and it aims to help ensure meaningful and effective public participation throughout the NYSDEC environmental permit review process. Public participation in the NYSDEC environmental permit review process means a program of activities that provides opportunities for stakeholders to be informed about and involved during the review of a proposed action.

The objective of this PPP is to outline and describe the program of activities that the applicant will implement to actively seek and enhance public participation during the application review process.

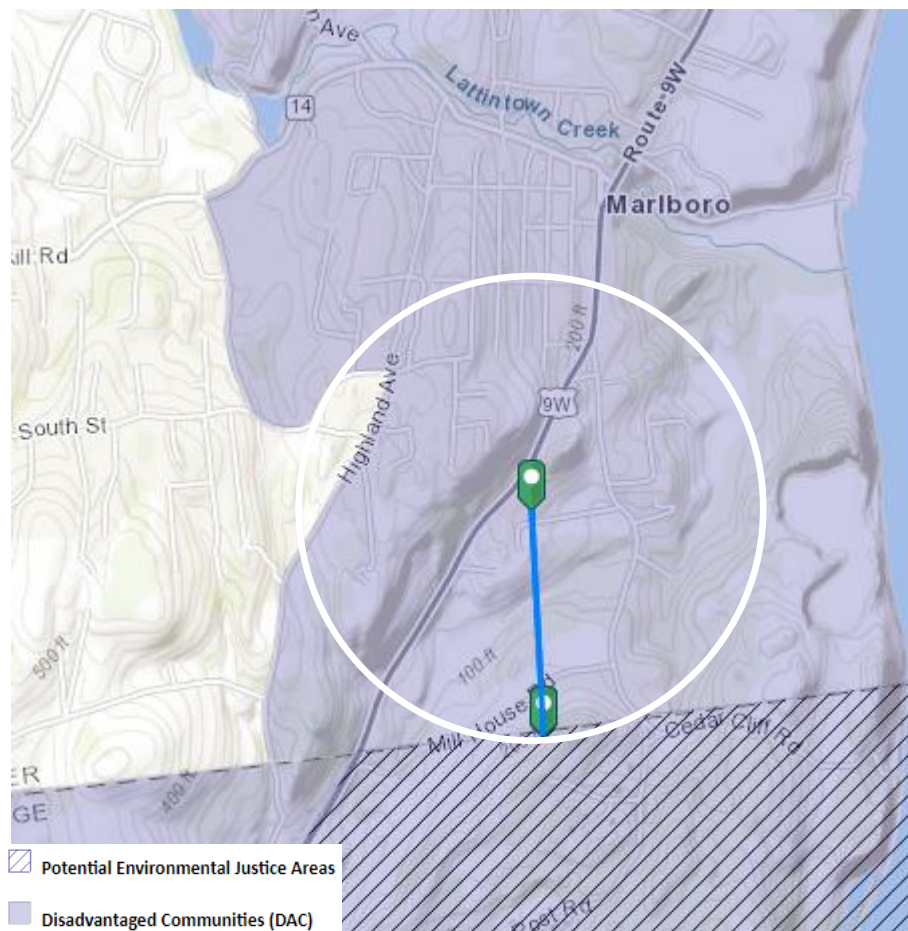

Figure 1. PEJA and DAC Map with 0.5-Mile Radius from Project Location

## **II. PROJECT DESCRIPTION AND PROPOSED ACTION**

### **Project Overview**

The applicant owns and operates a Solid Waste Transfer Station located at 1118 Route 9W in the Town of Marlborough, New York. The applicant is proposing to replace the existing  $\pm 5,800$  sf transfer station building with a new  $\pm 9,875$  sf transfer station building that will provide approximately 40% more enclosed tipping floor space and a dedicated transfer trailer loading tunnel. To implement the proposed project, the applicant has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for a modification to their existing Solid Waste Management Facility (SWMF) permit to authorize the capital improvement project.

### **Nature of Proposed Project/Action and Purpose**

The applicant is permitted to receive and transfer up to 300 tons per day (tpd) of residential and commercial Construction and Demolition Debris (C&D debris), non-putrescible municipal solid waste (MSW), and source separated recyclables (newsprint, glass, plastic, metal, paper and cardboard). The Facility is also designed to receive and transfer up to 1,000 pounds per month of E-waste. No changes to the Facility waste throughput are proposed with this capital improvement project.

The transfer station is located on approximately 2.66 acres located east of Route 9W and within the Highway Development (HD) zoning district. The Facility includes a lighted and gated entrance from Route 9W, an inbound scale, a Scale House / Office ( $\pm 1,500$  sf), an enclosed Transfer Station Building ( $\pm 5,800$  sf building to be replaced by a  $\pm 9,875$  sf building), a Recyclables Handling Area ( $\pm 2,500$  sf), an Equipment Maintenance Area ( $\pm 2,500$  sf), an outbound scale, and surrounding asphalt pavement for vehicle circulation. The access driveway from Route 9W provides approximately 475 feet to the inbound scale and 490 feet from the outbound scale.

The following capital improvements will enhance waste acceptance, handling, and transfer operations:

1. **Transfer Trailer Loading Tunnel:** The new transfer station building includes a loading tunnel that allows transfer trailers to be loaded in a dedicated tunnel that is separated from the tipping floor by a partition wall. The Facility previously loaded transfer trailers directly on the tipping floor, which caused traffic congestion and occupied space that could have been occupied by received waste. Separating the trailer loading area from the tipping floor will ease traffic congestion and maintain tipping floor area strictly for receiving and handling waste.
2. **Transfer Trailer Loading Scale:** The new transfer station building includes a truck scale within the transfer trailer tunnel that allows transfer trailers to be weighed during loading. This streamlines transfer operations and removes transfer trailer traffic from the outbound scale that will be reserved for customers. The Facility previously weighed both transfer trailers and customers on the same scale and had to return trailers to the tipping floor if they were overweight. Loading trailers directly on a dedicated scale ensures the trailers achieve the target weight before leaving the scale.

3. Increased Tip Floor Space: The new transfer station building provides 40% more enclosed tipping floor space. This enhances Facility operations by providing increased enclosed space for the efficient acceptance, inspection, sorting, and transfer of received waste. The Facility previously had a smaller tipping floor area that had to share space with transfer trailer loading operations, which caused waste handling inefficiencies.
4. Leachate Collection System: The new transfer station building provides trench drains at all vehicle doors to capture and collect leachate from the tipping floor and the trailer loading tunnel. The trench drains are plumbed to a 1,000 gallon double-walled underground storage tank equipped with a high level alarm for collection and offsite disposal. The Facility previously had no leachate collection system in the transfer station building.

Figure 2. Site Plan

## **Potential Impacts**

As described above, the proposed modifications includes no changes to the types of waste received or the quantity of waste received. The proposed modification includes a capital improvement project to modernize the transfer station building and improve operational efficiencies. The following potential impacts may occur:

1. Noise: The capital improvement project involves construction and demolition activities associated with a typical building construction project. Construction and demolition activities have the potential to generate noise from construction

equipment. The construction activities may occur after normal operating hours of the transfer station, which could temporarily increase noise for the duration of construction.

### **III. STAKEHOLDER IDENTIFICATION & CONTACT LIST**

A contact list consisting of the names, addresses, phone numbers, or email addresses of stakeholders to the proposed action is provided in Appendix A. The contact list includes individuals and organizations with a direct stake in the proposed action and people and individuals and organizations that have expressed interest in the proposed project or similar projects affecting the same neighborhood or community.

The current contact list has been developed in consultation with NYSDEC by identifying stakeholders from the following categories: local government and elected officials; business owners, residents, and occupants; local civic, community, environmental and religious organizations; local news media; administrator/operator of any school or day care that live, work and/or represent a neighborhood or community within 0.5-miles of the project area.

The applicant will utilize this contact list to communicate and disseminate information about the proposed project/action and permit application review process to the affected community and stakeholders. At minimum, this includes distribution of the written information and outreach materials described in Section V to inform the community about upcoming public meetings and opportunities for public participation.

The contact list will be reviewed periodically and updated as appropriate throughout the permit application review process. The applicant will update the contact list with any new stakeholders identified during the execution of the PPP. In addition, individuals and organizations will be added to the contact list upon request. Such requests should be submitted to the project liaison identified in Section IV. Other additions to the contact list may be made at the discretion of the applicant or, at the request of the NYSDEC project manager, in consultation with other NYSDEC staff, as appropriate.

### **IV. PROJECT LIAISON**

A representative from the project team will be available during business hours at:

- John LaMela III  
(845) 295-5307  
[John.lamelaiii1@gmail.com](mailto:John.lamelaiii1@gmail.com)  
1118 Route 9W  
Marlboro, NY 12542

Impacted residents and interested stakeholders can contact the project liaison listed above to provide input to the project team, discuss any issues or concerns and/or to ask questions or request information. The project liaison shall respond in a timely manner and in the manner appropriate to question or information request received. The project liaison will be responsible for tracking and documenting public input, inquiries, questions, and information requests received, along with responses provided.

## **V. PUBLIC OUTREACH ACTIVITIES**

The applicant will utilize a range of engagement strategies and conduct various public outreach activities to facilitate participation, involvement, and direct communication with the affected community during the permit application review process. The applicant will implement the public outreach activities outlined below upon finalization and approval of this PPP by NYSDEC.

In compliance with the requirements of CP-29, the applicant will hold public information meeting(s) to keep the public informed about the proposed action and the environmental permit review process. At minimum, the applicant will prepare, distribute and post written information and materials, including a meeting notice and fact sheet, to encourage dialogue and solicit input from interested stakeholders during the permit application review process. All public outreach materials and information will be prepared and presented in an easy-to-read, understandable format, using plain language free of legal terminology, and geared towards a non-technical audience.

The public meeting notice and fact sheet will be made available and disseminated in English. In addition, the public can contact the project liaison regarding the availability of language assistance and to request that the notice and fact sheet are translated into another language for comprehension by non-English speaking or limited proficiency stakeholders.

### **Public Meeting(s)**

At the discretion of NYSDEC and, depending on the scale and nature of a project, one or more virtual public meeting(s) must be conducted to satisfy the intent of CP-29.

A meeting is typically required near the end of the permit application review process to inform the public about: the status of, or, if applicable, the availability of, final application materials and draft permits for review; the pending NYSDEC public comment period, and deadline to submit written comments to NYSDEC, if established; and eventual final decision. Meetings may also be held earlier, either pursuant to this plan or possibly even earlier during the initial design phase.

### **Public Meeting: At or Near Completeness**

The Applicant will facilitate a virtual public meeting or meetings on September 16, 2025 at 6:00 PM to:

- Inform the public about the proposed project/action and permit application review status.
- Provide the opportunity to for stakeholders to ask questions and express concerns about the project and identify how to obtain information or answers to questions after the meeting has concluded.
- Inform attendees how they may submit written comments on the permit application to the NYSDEC during the public comment period and, if available, identify any applicable deadlines.

### Necessary Meeting Discussion Points and Requirements

All meetings will be facilitated by the applicant and/or representatives from their project team (project personnel) via virtual meeting platforms (e.g., Microsoft Teams or Zoom). During the meeting, the applicant and/or representatives from their project team will present a brief overview of the project, including any relevant background information, details on the permitting action, scope of work, schedule, and community impacts. The second part of the meeting will include a question-and answer-portion where the floor will be open for attendees to ask questions, make remarks, and/or express concerns. In addition, the following discussion points will be addressed:

- Provide an update on the permit application review process and identify outstanding application requirements and future milestones in the application review process.
- Make it clear that the meeting is being held prior to NYSDEC's permitting decision for the project/action.
- Identify the location of the online document repository and provide directions on how attendees may obtain and review materials relevant to the application, documents related to the meeting and other public participation plan components.
- Identify and provide contact information for the project liaison and announce procedures for how attendees may obtain answers to questions after the meeting has concluded and interested stakeholders can submit questions, express concerns, or request additional information by telephone, email, and in writing.
- Announce any future outreach, opportunities for public participation, and /or required follow-up with attendees including, but not limited to: additional meetings and future mailings, including, but not limited to the Notice of Complete Application.

Attendance will be recorded during the virtual meeting by the virtual attendance feature in the virtual meeting platform. The applicant will track the number of attendees for all meetings held during implementation of this PPP and, where feasible and applicable, identify any affiliation of participants and interests represented at the meeting. In addition, the applicant will be responsible for documenting meeting notes or minutes, along with a record of comments and questions raised in the meeting and respective responses and answers provided. Attendees not identified on the contact list will have the option to be added in the event of future meetings or information sharing.

### Virtual Public Meeting Notice Preparation and Distribution

Information regarding the details of the virtual public meeting(s) and how to participate via computer and/or telephone is contained in the reader-friendly meeting notice(s) shown in Appendix B. The notice has been prepared in English and will be translated into additional languages by a certified translator if requested by stakeholders. Through these notices, the public will be invited and encouraged to attend the public virtual meeting scheduled on September 16, 2025 at 6:00 PM.

Once the PPP has been approved by NYSDEC the public meeting notice will be posted and available in the online document repository described in Section VI of this document. At least two weeks in advance of the public meetings, the notice will be published in the

Southern Ulster Times, which is a weekly newspaper printed, published, and circulated in the Town of Marlboro and surrounding Ulster County. In addition, the public meeting notice will be emailed, mailed and/or hand delivered (door-to-door) to the stakeholders identified in the contact list in Appendix A at least two weeks prior to the public meetings.

### **Fact Sheet Preparation and Distribution**

Factual information on the proposed project/action, including an overview, purpose statement, and potential impacts, is outlined in the reader-friendly fact sheet shown in Appendix B. In addition, the fact sheet outlines how interested stakeholders can: participate in the permit application review process; access the online document repository to review relevant application materials; and contact the project team to obtain additional information. The fact sheet has been prepared in English and will be translated into additional languages by a certified translator if requested by specific stakeholders.

Once the PPP has been approved by NYSDEC the fact sheet will be posted and available in the online document repository described in Section VI of this document. The applicant will distribute the fact sheet to provide stakeholders with relevant background on the proposed project/action. The fact sheet will be distributed via email, mail, and/or hand delivery (door-to-door).

The fact sheet will also be posted within the vicinity of the project site and visible to the public. For example, they may be posted on some streetlight lampposts or bulletin boards located in the lobby of residential complex buildings or public facilities such as libraries, schools, or community centers within the project site.

### **Distribution of Notice of Complete Application**

Once NYSDEC determines the application(s) for the proposed action/project is complete and provides the Notice of Complete Application (NOCA) to the applicant, the applicant will distribute the NOCA and draft permit, if applicable, to the meeting attendees and any identified interested parties, to provide notification regarding the start of the NYSDEC public comment period and to announce the deadline for submission of written comments to NYSDEC. If the NOCA is available at the time of the meeting, the applicant will distribute the NOCA at the public meeting. If the NOCA is not available at the time of the meeting, the applicant will provide explicit instructions on how to access the online repository and inform the attendees that, once available, the NOCA will be posted to the online document repository and will be distributed to attendees via email or mail as soon as possible, but no later than the date that the NOCA is published by the applicant in the print edition of a paid local newspaper that is circulated at least weekly and available in the municipality in which the project is located.

## **VI. DOCUMENT REPOSITORY**

An online document repository has been established for the community and interested stakeholders to access and review information about the project. The online repository available at <https://lamelasanitationservice.com> will provide information and documents relating to the project and permit application.

The repository will be updated throughout the application process with project-related information and written materials (i.e., application forms and supporting materials, draft permit, fact sheet, statement of basis (where applicable), the Notice of Complete Application provided by the NYSDEC, etc.).

## **VII. SUBMISSIONS**

### **Final Summary Report and Written Certification**

Upon completion of the enhanced public participation plan, the applicant will submit written certification to NYSDEC to certify that it has fully executed and complied with the approved PPP. The certification shall be signed by the applicant, or the applicant's agent, and submitted to NYSDEC prior to a final decision on the application.

As part of the certification, the applicant shall submit a final summary report documenting the implementation of this PPP. The report will summarize the activities that occurred in accordance with the PPP and will identify any substantive concerns raised by stakeholders during the public meeting, or, at any time throughout the permitting process and detail the applicant's response(s) to any such concerns or questions. The applicant will include, or append, any documentation that supports the final summary report, such as: the meeting sign-in sheet(s), record of attendees/participants, meeting presentation, notes or minutes, summary of questions and answers, and copy of newspaper notice or other proof of publication. In addition, the report will identify any changes or modifications to the proposed project that were made or considered by the applicant to address or reduce concerns surrounding the permit application.

The final summary report and written certification will become part of the application record and will be posted to the online document repository so that it is readily available to the public.

# YOU ARE INVITED

## Virtual Public Meeting September 16, 2025 at 6:00 P.M. LaMela Sanitation Service, Inc. Solid Waste Management Facility

---

LaMela Sanitation Service, Inc. has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for a Solid Waste Management Facility permit modification for the construction of a new transfer station building. A Public Participation Plan has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29). The purpose of this meeting is to inform the public about the project and to involve the community during the NYSDEC permit application review process.

## **APPENDIX C**

### **Fact Sheet**

# **Solid Waste Transfer Facility Permit Modification**

## **Fact Sheet**

- **Project:** Solid Waste Transfer Facility Permit Modification
- **Applicant:** LaMela Sanitation Service, Inc.
- **Facility:** Solid Waste Transfer Facility, 1118 Route 9W, Marlborough, New York
- **NYSDEC Application Number:** 3-5136-00007/00002
- **A Public Participation Plan (PPP) has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29)**

### **What is the Proposed Project?**

The Proposed Project will construct a capital improvement project to replace the existing ±5,800 sf transfer station building with a new ±9,875 sf transfer station building that will provide approximately 40% more enclosed tipping floor space and a dedicated transfer trailer loading tunnel. To implement the proposed project, the applicant has submitted an application to modify its existing Solid Waste Management Facility (SWMF) permit to the New York State Department of Environmental Conservation (NYSDEC). The purpose of this fact sheet is to inform the public about the proposed project and to involve the community during the NYSDEC permit application review process.

### **Why does LaMela Sanitation Service need to replace the transfer station building?**

- The existing transfer station building is aging and in need of improvements to modernize the facility and improve waste handling efficiency. No changes to the type or quantity of waste received are proposed with this project. The new building will provide 1) 40% more enclosed floor space for indoor waste handling; 2) a dedicated trailer loading tunnel and scale to improve loading efficiency; and 3) a leachate collection system to capture any liquid from waste material for disposal.

### **How might the project affect the surrounding community?**

- The capital improvement project involves construction and demolition activities associated with a typical building construction project. Construction and demolition activities have the potential to generate noise from construction equipment. The construction activities may occur after normal operating hours of the transfer station, which could temporarily increase noise for the duration of construction.

### **How can I participate in the permit review process?**

- Attend the upcoming virtual public meetings scheduled for September 16, 2025 at 6:00 P.M. to learn about the project, ask questions and/or express concerns about the project.
- Ask questions, express concerns, provide input or submit by comments in writing, by phone or email to the project contact person identified below.

### **Where can I get more information about the proposed project?**

- Visit the online document repository at: <https://lamelasanitationservice.com> to obtain application materials, relevant documents, and information about the project.
- Contact John LaMela III, by phone at: (845) 295-5307 by email at: [John.Lamelaiii1@gmail.com](mailto:John.Lamelaiii1@gmail.com) or in writing at: 1118 Route 9W, Marlboro, NY 12542 for information on the project or to find out about the status of the permit application and public comment period.

### **Who is responsible for reviewing the Permit Application?**

- NYSDEC Region 3 Headquarters, 21 South Putt Corners Road, New Paltz, NY 12561, is responsible for reviewing and issuing the required permits. Tel: (845) 256-3054; email: [DEP.R3@dec.ny.gov](mailto:DEP.R3@dec.ny.gov)
