John H. Coleman Co.
Service Solutions

Employee of the Month:

Jeremiah Hitson was our November employee of the month. Jeremiah works with our electrical team and always shows up with a smile on his face and a great work ethic to match!

Celebrating the Season at John H. Coleman Co.

December is a time for reflection, celebration, and gratitude—and at John H. Coleman Company, it's also a time to come together and appreciate what makes our organization special. As we close out another year, we're thankful for our 80-year legacy of serving the Knoxville community and for the people who continue to carry that legacy forward every day.

One of the highlights of the season was our annual **JHCC Christmas Party**, where our team gathered to enjoy great food, great company, and plenty of holiday cheer. Lunch was catered by **Brown Bag**, generously

provided by **Cintas**, and it created the perfect setting for a festive afternoon. During the celebration, we proudly recognized our **Employee of the Month for November** as well as our **Employee of the Year**, honoring the dedication, leadership, and hard work that drive our success. Each employee also received **JHCC swag** as a small thank-you for their commitment and pride in representing our company.

The celebration continued with one massive game of **Dirty Santa**, and it quickly became the center of attention. JHCC provided gifts for every employee, and the friendly competition led to nonstop laughter as presents

were opened—or strategically stolen—up to the three-steal maximum. Employees went home with exciting prizes such as **TVs, Blackstone grills, power tool sets, smokers, drones, and more.**

As we look ahead to the new year, we remain grateful for our hard-working team, our loyal customers, and the opportunity to continue serving Knoxville with integrity, care, and excellence. From all of us at JHCC, we wish you a Merry Christmas and a Happy New Year.

Winter Energy Savings Tips

Winter energy bills can rise quickly, but a few smart habits can help keep costs under control. Lower your thermostat a few degrees when sleeping or away from home, and use curtains or blinds at night to reduce heat loss through windows. Replace dirty HVAC filters regularly to

keep your system running efficiently, and seal gaps around doors, windows, and outlets to prevent drafts. Scheduling routine maintenance can also improve performance, extend equipment life, and help your home stay warm and comfortable all winter long.
