John H. Coleman Company: 80 Years of History

In 1945, Mr. John H. Coleman established a business in his name that has remained proudly local and now family owned for 80 years. That name is still recognized throughout Knoxville and its surrounding areas as a pillar of quality, integrity, professionalism, and reliability. For the first five decades, Mr. Coleman personally led the company, providing unmatched service in residential and light commercial HVAC.

In 1995, the business was passed on to fellow Knoxville native, K. Buddy Cruze. Now, 30 years later, Buddy continues to lead the company, which has grown to include plumbing, electrical, and soon pool maintenance services. Today, operating as John H. Coleman Home Services, it stands as one of the few locally owned and operated businesses in the Knoxville area.

Whether it is buying new or servicing your current equipment, our goal has always been to make your experience stress free by making sure you have all the information you need to make the right decisions.
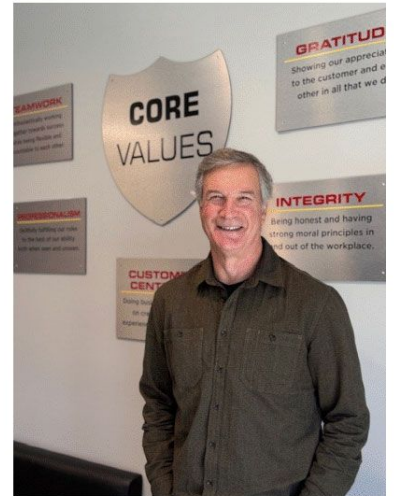

Buddy Cruze (above)

Thank you for 80 years of trust. We look forward to serving your home service needs for many more years to come.

Employee of the Month:

Amy Kincaid was the January employee of the month! She played a key role in our CSR department while some others were out this past month! (Picture below)

Refrigerant Change Again!

In 2015 the U.S. saw it's last refrigerant change. It is happening again in 2025! Refrigerants will change to more eco-friendly options. If your current system uses older refrigerants, now's the time to upgrade. New models are more energy-efficient, reduce your carbon footprint, and help the environment.

While there may be some up-front costs, investing in new equipment means lower energy bills and a more sustainable future. Upgrade today and stay ahead of the change!
