

## Under Sink System

### Innovative Design & Technology

- Sleek, Compact and Modern Looking Filter System
- Water passes through 5 Stages of Commercial Grade Filtration
- Important Minerals and Electrolytes Added Back

### 5 Stages of Commercial RO Filtration

- Stage One: Sediment Filter
- Stage Two: Carbon Filter
- Stage Three: Reverse Osmosis Filter
- Stage Four: Add Back Minerals
- Stage Five: Polishing Filter

### Compact System Design

- Filter Dimensions: 6"d x16"l x16"h
- Tank Dimensions: 11" Diameter x16"h
