

As we look forward to the progressing phases of getting back to a new normal, we would like to update you on some changes you will see when it is time for your next appointment.

Infection control has always been, and will continue to be one of utmost importance. We follow the infection control recommendations of the American Dental Association, Center for Disease Control, and OSHA. We are vigilant in daily updates, remaining current in all recommendations from these agencies.

Pre-appointment screening will include a questionnaire and statement that will require signatures. Chairs have been moved to allow social distancing and all other items have been removed (magazines, toys, pamphlets, etc.). Protective barriers have been placed at the reception desk and other areas of the office to safeguard both our patients and our staff.

Appointments are made to allow for social distancing between patients, as well as cleaning and sterilization, so please be patient as fewer appointments are available in Phase 1 of opening the state.

The safety and well-being of our patients continues to be our primary concern. We will continue to monitor the state's updates and keep you up to date as we begin re-opening our practice in stages.

I urge you to contact our office if you have any questions or concerns. We can be reached by phone at (620)225-6555 or by email office@cowboydds.com and will respond as soon as we can.

We look forward to seeing you again soon!

Thank you!

Dr. Kelly Henrichs
