## Happy New Year from Amazing Smiles Family Dentistry!

Welcome 2021! We hope this year brings you much happiness, health, love, and success! Despite the uncertainty of what this year will look like, set your goals, say them out loud, and work to make them happen. You're capable of creating your own happiness and sharing that joy with the world. And we can't wait to see how you continue to be AMAZING!

## *We're Here to Help!*

It's a new year, and we all have high hopes for what it will entail. However, some of us are still being impacted by the events of 2020. And for some, that means they no longer have access to quality dental insurance and coverage. If you happen to find yourself in this position, don't give up on your 2021 oral health resolutions just yet.

Our goal at Amazing Smiles Family Dentistry is not only to provide quality care, but to ensure you have affordable resources to maintain the health and appearance of your smile. Thus, we constantly offer specials for new and existing patients, promotions, giveaways, discounts, and even dental coverage for those without.

If you're currently uninsured, please speak with us about our Amazing Smiles In-Office Dental Plan. For less than \$300 a year, you'll still be able to receive (1) bi-annual cleanings, x-rays, and exams (2) an emergency visit including x-rays and exam (3) 25% off all dental treatment (including cosmetic services) (4) and all without an annual maximum, deductible, or waiting periods!

Also, be sure to listen out for upcoming 2021 discounts, promotions, giveaways, and more!

**Let us help you accomplish your new year resolutions! Here's to a happy, healthy 2021!**

# The Difference a Cleaning Can Make

Before

After

Overtime, buildup accumulates on our teeth, especially near the gum line. And although it may not be visible when you smile in the mirror, through intraoral photos we're able to see that buildup a lot clearer. The before photo on the left shows plaque that's built-up at the gum line in just 6 months! That plaque contains millions of bacteria that eat away at your teeth and gums causing issues such as cavities and periodontal disease. Regular flossing, brushing, and dental visits help to ensure that your teeth maintain their healthy clean appearance as seen in the after photo on the right.

## Answers to frequently asked questions...

**Do you offer nitrous oxide (laughing gas) to patients with high dental anxiety?**

Yes, for an additional cost of \$75, nitrous oxide can be administered prior to treatment.

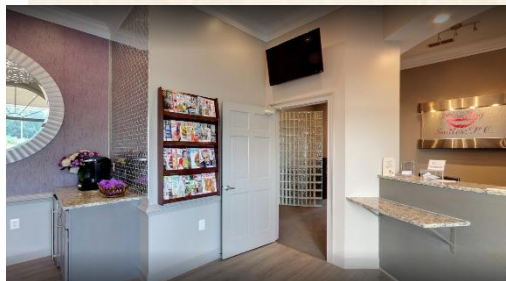

**What options do I have if I cannot afford the treatment that I need?**

We offer several options to assist with personal finances including:

- Care Credit
- Financing Options
- In-Office Dental Plan Discounts
- Payment Installments

**What can I do to avoid needing treatment in the future?**

Ensure to brush and floss daily, and make sure you schedule your regular cleaning appointments.
