Welcome, 2022!

Welcome, 2022! We still have no idea how we got here so quickly, but we're glad to be here nonetheless. And we all know what a new year means... new resolutions! And because we want to encourage you all to meet your personal goals, we'll share our "secrets to success":

1. *Slow and Steady Wins the Race*

As cliché as this may be, there is truth behind it. It can sometimes be difficult to stick with our resolutions because we aim to make immediate drastic changes in our lives that significantly differ from our normal routines and habits. However, in order to adopt new habits and remain consistent, we have to gradually increase our tolerance for this new behavior. For example, if you never went to the gym in 2021, is it realistic that you'll go every day in 2022? Probably not. But that doesn't mean it has to be all or nothing. Start by going 2-3 times a week until that becomes habitual – then move up to 3-4 times, then 4-5 times, and so on.

2. *Be Kind to Yourself*

Every step forward puts you closer to your goal. Celebrate your accomplishments, big or small. You'll increase your morale, continue to grow, and establish a better relationship with yourself.

So, here's to a great year! We can't wait to see all of your amazing smiles again!!

“Amazing experience. Very friendly and accommodating.

Dr. Chubb and her team answered all my questions. Very thorough on everything. I was in great hands. Overall just awesome.”

“Love Dr. Chubb and her practice. Everyone is very professional, nice and caring.

My husband and I have been patients for 13+ years, simply the best dentist I have ever had and trust me I don’t enjoy going to the dentist, but I know every time I’m in such a great hands. Dr. Chubb has the softest hands a dentist can have. She is truly an artist and the best at what she does. 150% Recommended!”
