

Diary of a Kitchen Remodel *The Hoskins Family*

What were your reasons for wanting to remodel your kitchen
and your laundry?

"First, I just needed to update my kitchen but mostly I wanted my peninsula taken out and an island put in," Brenda Hoskins shared. "It has opened up the room and made it feel much larger. The island is now a place where we can sit and watch the tv and everyone can congregate. And my laundry room had cheap cabinets, and I wanted it to match my kitchen."

Why did you choose W. Stephens Cabinetry and Design?

I went to several other places (for kitchen design) and every man that came out here said I couldn't get an island in here. So I kept trying until Callie came out here and she made it work and so she got the job," Brenda said. "I actually had two men come out, with two other designs and they did not come up with half the ideas that Callie came up with."

What changes to your kitchen worked well?

"Callie moved the stove to the other side of the room and that gave me much more counter space. We also moved the refrigerator and that made room for a utility closet that I really needed. She also recommended some nice trim pieces," added Brenda. "You kind of get to know a person once you start working with them and I think Callie knew I wanted some little extra things."

Would you recommend W.Stephens Cabinetry to your friends and neighbors?

"Yes, I would totally recommend W.Stephens Cabinetry. Callie is now doing my sister-in-law's house because she came here, and she liked what she had done in my kitchen."
