WOOD CREATION

*Inspired to Create*

Custom Cabinetry

# Welcome!

Whether there's a new kitchen in your dreams, a bathroom remodel in the works, or you're in need of some custom woodwork and trim in an area of your home, we're excited to help! Our goal is to provide you with cabinetry and custom woodwork that not only looks great (that's the obvious part), but is also functional and a joy to experience.

Just as important, (or more?) is quality construction in the obvious and not so obvious areas. Details like dovetailed drawer boxes, using solid wood components where possible, and time proven construction methods give your project what it needs to endure the rigors of daily use. Whether your whipping up meals, baking for the family, enjoying a little personal time, or simply connecting with the loved ones in your life, worrying about the durability of your cabinetry shouldn't be something you need to think about.

The best part? All this is completely customizable to your unique situation. Whatever your space, we can build to fit. Bring us your challenges and dreams...kitchens, vanities, libraries, bar areas, bookcases, mantels, trim, etc., we're ready to create! And for your inspiration, here's some examples in our satisfied customer's homes!

*Akron, Pennsylvania*

Constructed of maple wood with Nutmeg stain on the wall runs and Georgian paint with Warm Brown glaze on the 72" island. Laminate counter tops finish off this Cambridge line kitchen for a warm and cheery living space.

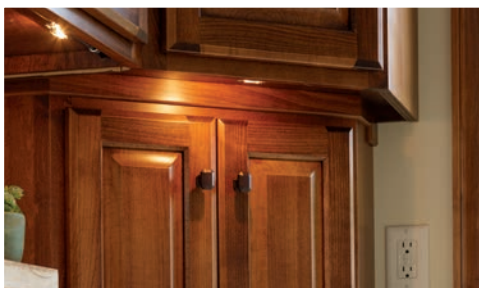

Pull out above refrigerator

Millwork above windows

Pull out cutting board

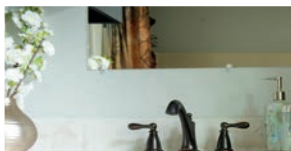

Under cabinet lighting

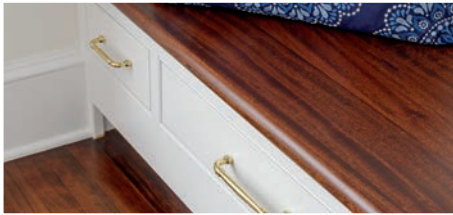

## *Master Bath & Mud Room*

Cambridge line vanity cabinets, also in maple, feature marble tops in the master bath.

# *Fair Hills, Maryland*

Homestead line cabinets in maple wood with Seely stain and Portabella glaze dress up an 18th century farmhouse remodel. Features include a maple butcher block top on the island and dual pantries with pullouts on either side of the refrigerator cabinet. Matching maple vanities were chosen in bath and powder room(opposite).

## *Scotch Plains, New Jersey*

Modern farmhouse kitchen in a renovated and expanded early 1900's home. Cambridge cabinets in white, contrast with cherry island and bar cabinets in ebony stain and a rubbed through finish. The bar area features a reclaimed oak top to complement the brickwork of the original house structure.

Roll Out under Sink

Pull out Spice Rack

Tray Storage above Wall Oven

Custom Utensil Drawer Dividers

Kettle Storage

Wine Cooler and Microwave in Island

Trash Can Pullout

Adjustable Shelving

*Details for Living*

## *Intercourse, Pennsylvania*

Cambridge line maple kitchen with laminate countertops. Family room project features custom beams, trim, and two tone custom bookcase.

**72" Custom Island**

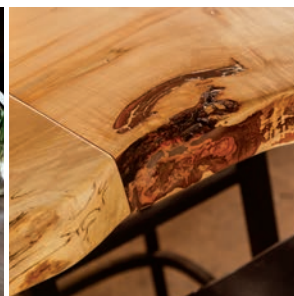

- Sky Gray painted Cambridge cabinets
- Custom wood top finished in Kona stain
