

# RENTAL PROTECTION PLAN (RPP) AGREEMENT

*(One Protection Plan Assigned Per Machine)*

## RPP OVERVIEW

The **Rental Protection Program (RPP)** is an **optional waiver program** offered by Big Boys Toys All Terrain Rentals (BBT) and is **not insurance**. It reduces the renter's financial responsibility for **accidental damage** occurring during **normal, responsible operation** in **designated riding areas**. Coverage applies **only during the official rental period** and does **not** cover **third-party liability, personal injury, or property damage**. The RPP fee is **nonrefundable once the rental begins** and **cannot be purchased after the rental has started**.

## RPP FEE & DEDUCTIBLE (Assigned by Machine Type)

Each snowmobile has **one pre-assigned protection plan**. Customers **do not choose tiers**.

Machine Type	RPP Fee (per day)	Deductible	Recovery Assistance	Loss Rental Revenue
<b>Standard</b> (older / high-mileage)	\$50	\$1,500	Up to \$260	\$500
<b>Newer</b> (recent / low-mileage)	\$75	\$2,000	Up to \$260	\$750
<b>Premium / Turbo</b>	\$100	\$3,000	Up to \$260	\$1,000

---

## DAMAGE ASSESSMENT & MACHINE VALUE

All repair labor, damage assessments, and parts pricing are determined by **BBT's on-site mechanic**, using **retail parts pricing**. The snowmobile's **Average Retail Value**—used only to determine **total-loss status**—comes from the **JD Power (NADA) Powersports Guide**. JD Power values are **not used** for repair cost calculations.

## LOSS OF RENTAL REVENUE

If the machine becomes inoperable due to renter-caused damage, BBT may charge the **daily rental rate for up to 7 days**. The RPP includes a rental-revenue credit of **\$500** for Standard machines, **\$750** for Newer machines, and **\$1,000** for Premium/Turbo machines. After the credit is used, the renter is responsible for any remaining lost revenue. **Without RPP**, the renter pays the **full lost rental revenue amount** up to 7 days.

## RECOVERY ASSISTANCE

If recovery is required because the machine is stuck, stranded, or disabled, the RPP includes up to **\$260 in recovery services (≈ two hours of labor)**. After this amount, recovery is billed at **\$65 per man-hour**, with a **two-person team minimum**, and billing time begins when the team **leaves BBT facilities** and ends when they **return**. **Without RPP**, the renter pays **all recovery costs from the first minute**, plus any damage. Please note because this is a **backcountry environment**, **cell service may be limited** and **response times may be longer**.

## EXCLUSIONS

The RPP does **not** cover damage caused by **misuse, negligence, reckless operation, intoxication, water submersion, restricted-area riding, racing, stunts, intentional damage, third-party property damage, personal injury**, or any damage occurring outside the official rental period.

## CUSTOMER ACKNOWLEDGEMENT

By signing, I acknowledge:

- I have **read and understood** the RPP terms.
- I understand RPP is **optional, not insurance**, and coverage is limited.
- RPP is **nonrefundable** and **cannot be added after rental starts**.
- I understand the protection plan and deductible assigned to my machine.
- Damage assessments are done by **BBT's mechanic using retail parts pricing**.
- In a **Total Loss**, I pay the **Average Market Value minus deductible**.
- Declining RPP means I am **fully responsible for all damages, lost rental revenue, and recovery costs**.
- I understand and accept the **recovery policies and backcountry notice**.
