

The Recovery house was established in 2019 as a co-ed facility. With the growth and need for recovery housing in our area, Harbor opened another recovery house in 2025 allowing a chance to focus on men and women's recovery individually. The program is designed to provide a safe structured and supervised environment that gives men the tools they need to better themselves and rebuild their ties to the community.

HARBOR MEN'S RECOVERY HOUSE

ABOUT THE HOUSE

The house offers up to 10 beds with a housing manager on site who can help guide you to success. CRS staff on site, can work with you closely to provide guidance as needed throughout your stay. Harbor's Drop-in center is located in the basement of the men's house, which provides opportunities to engage with other members in the recovery community local to our area.

What you gain from our program

- A safe environment to recover in
- CRS Services
- Career Support
