

The Recovery house was established in 2019 as a co-ed facility. With the growth and need for recovery housing in our area, Harbor opened another recovery house in 2025 allowing a chance to focus on men and women's recovery individually. Since then Harbor Counseling has created a peaceful environment allowing women the opportunity to grow and recover in a safe location. We take pride in meeting you where you are in your recovery as we recognize that each recovery journey is different. Harbor Counseling provides you with the opportunities that will set you up in the future for independence and confidence.
