

My Glacier Dental Story

with Whiskers the seal

This walkthrough of our patient's first visit is a great way to introduce any child (or any patient who wants to check out new surroundings) to our office. It is a fun and interactive tool to orient our newest patient to know what to expect and what they will see.

I am going to the dentist today to get my teeth checked! First we will drive to the office and park in the parking lot.

This is the building I will go to.

I open the door and go inside. A new friend at the front desk will say hi to me when I walk in the door and I will check in.

Next one of the hygienists or assistants will come to the waiting room and say my name. They are so excited to meet me!

When I hear my name I stand up and say hi. They lead me down the hallway and bring me back to my room.

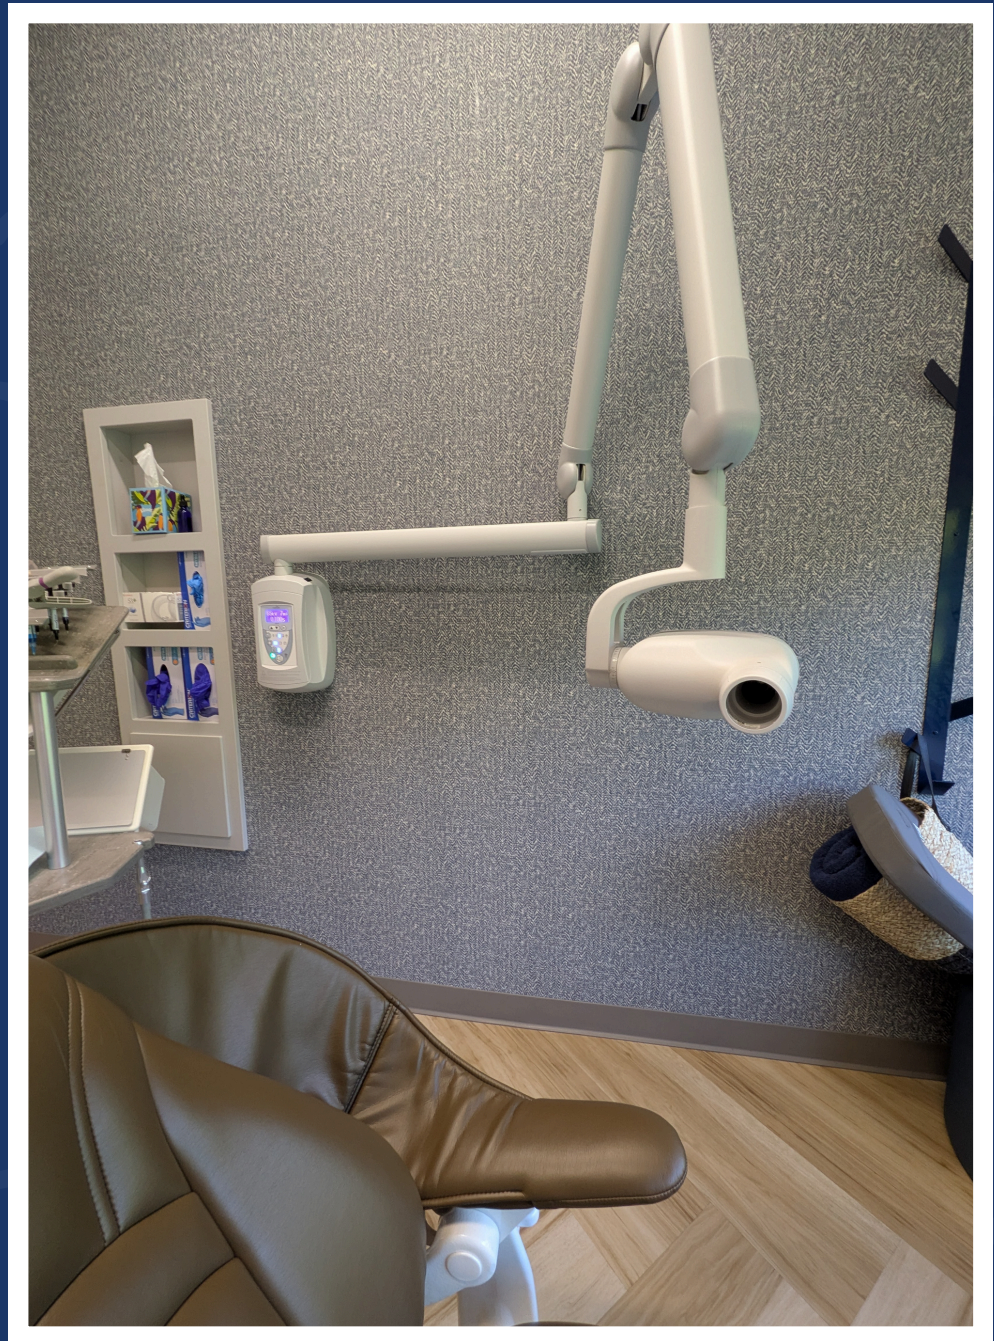

**We go into a room with a comfy chair.
There are also headphones and a blanket if
I want them. On my first visit I get a gift that
might look familiar!**

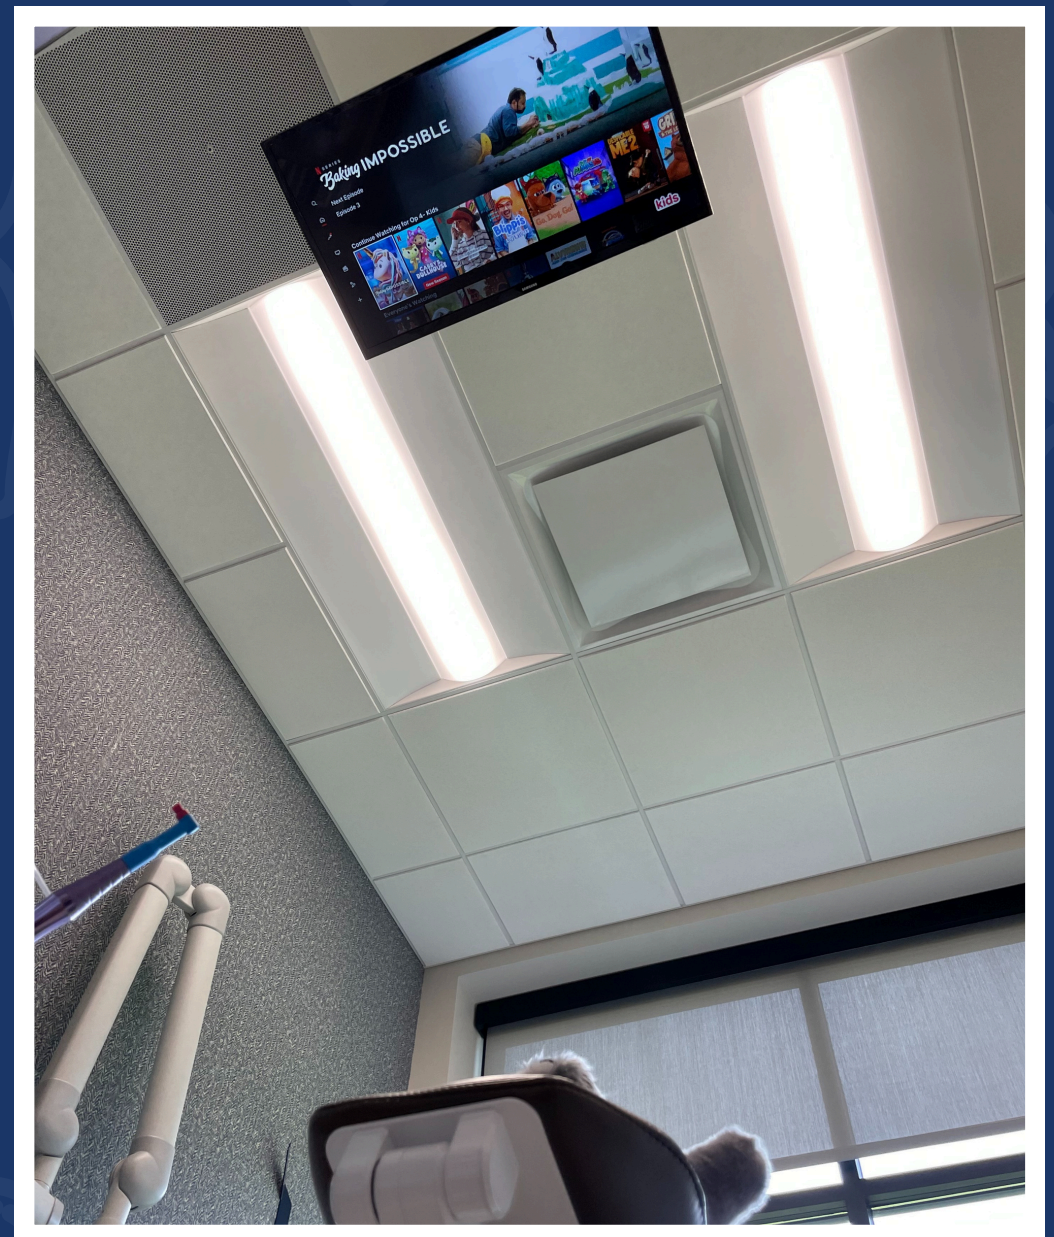

I get to take a picture of all my teeth on a big, funny looking camera! The camera spins around my head and I stand still as a statue so the picture isn't blurry. The camera even plays music, it is so easy!

**When I return to my room I sit in the chair
and sometimes I will take a few more
pictures of my teeth with a different goofy
looking camera. I will bite on the red holder
so the camera can see my teeth!**

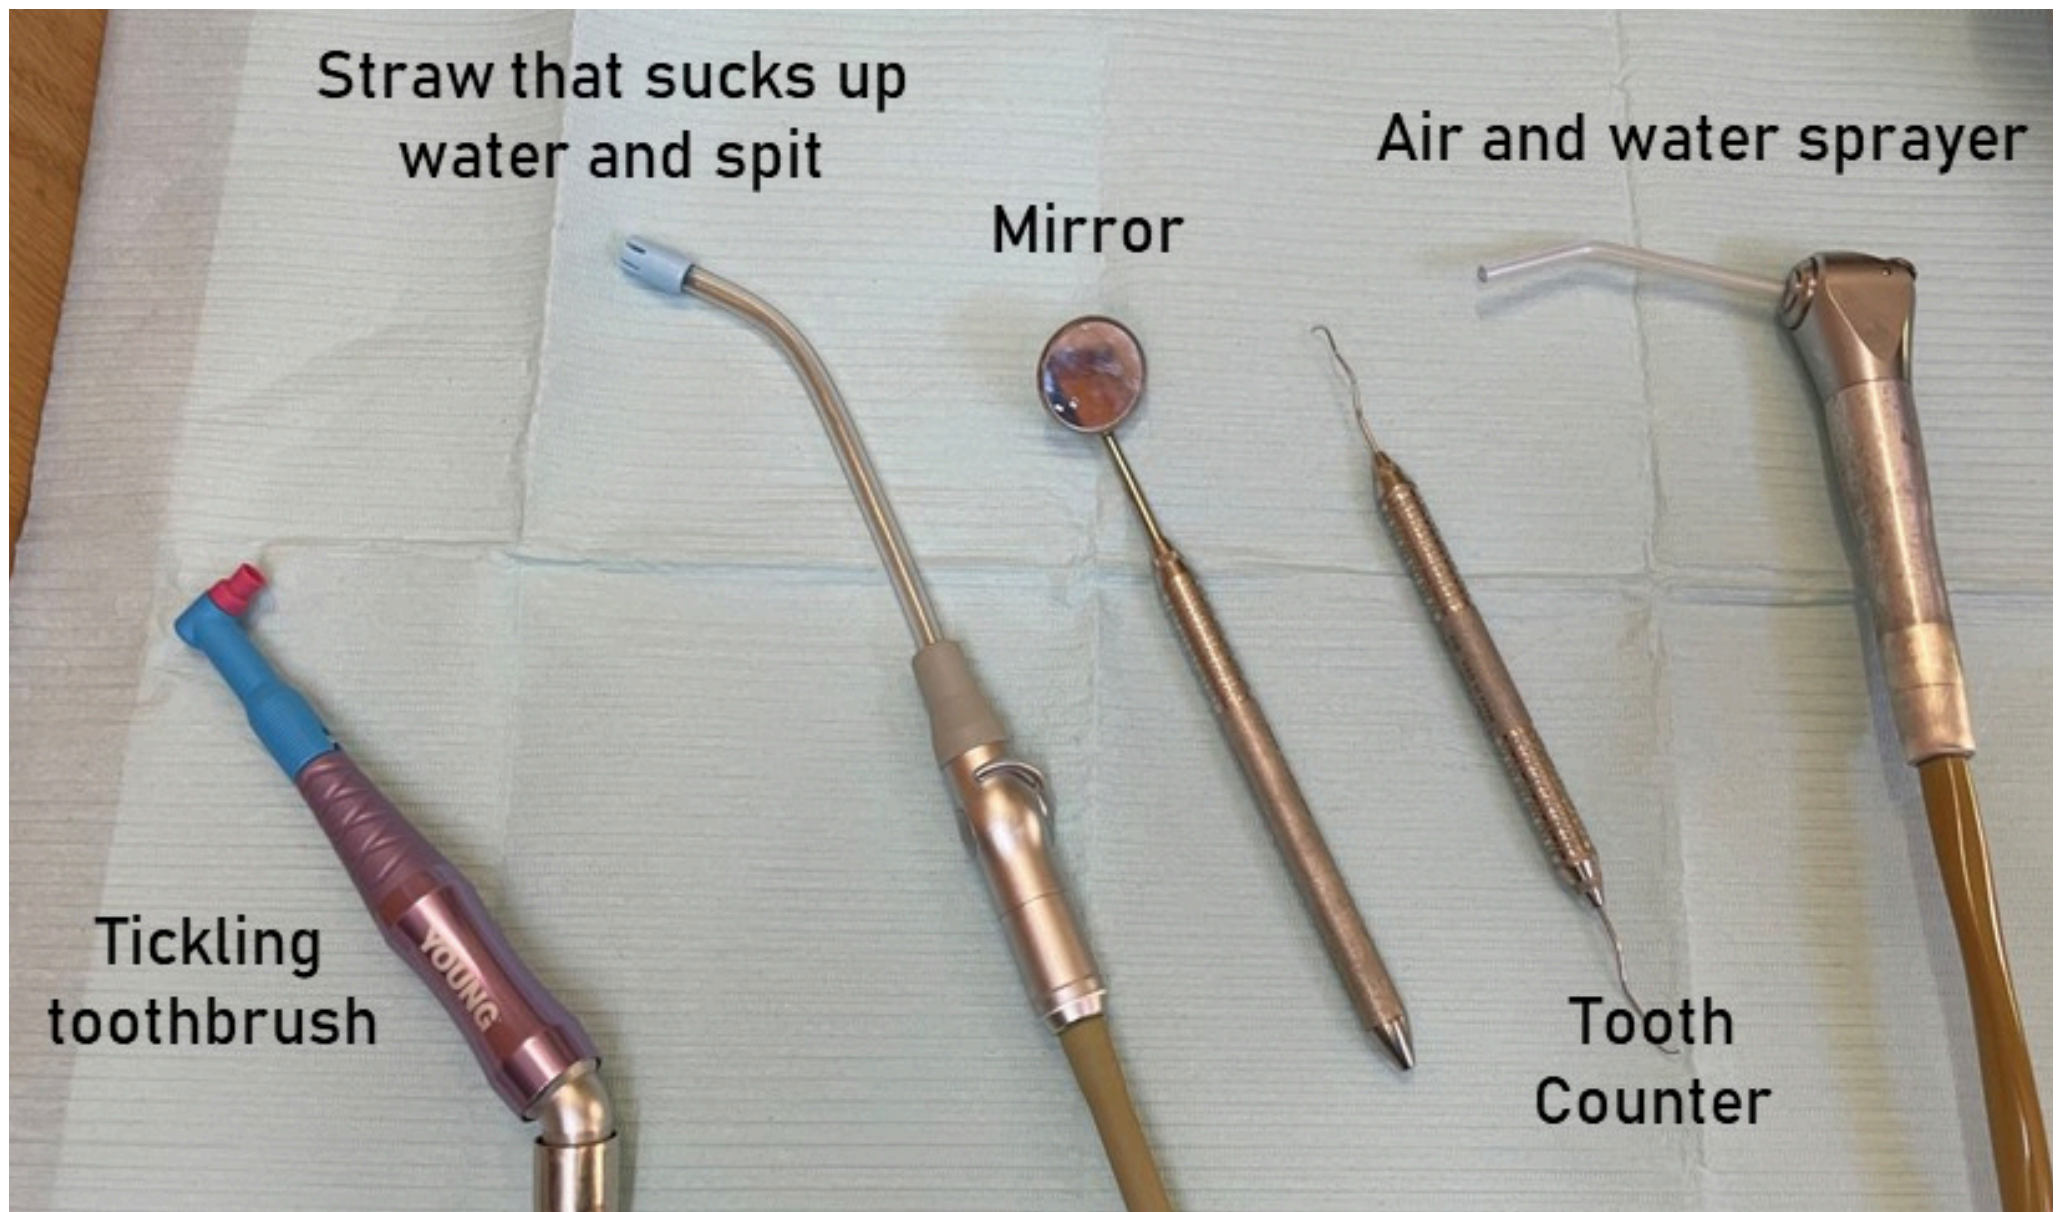

**When we have all the pictures of my teeth
the chair will lay allll the way back like a
couch. There is a big TV on the ceiling and I
get to pick what I want to watch on Netflix!**

They turn the light on their silly glasses & it is bright, so they let me wear sunglasses. I say AHHHH and sit nice and still with my hands on my belly. I open BIG like a dinosaur so they can count my teeth.

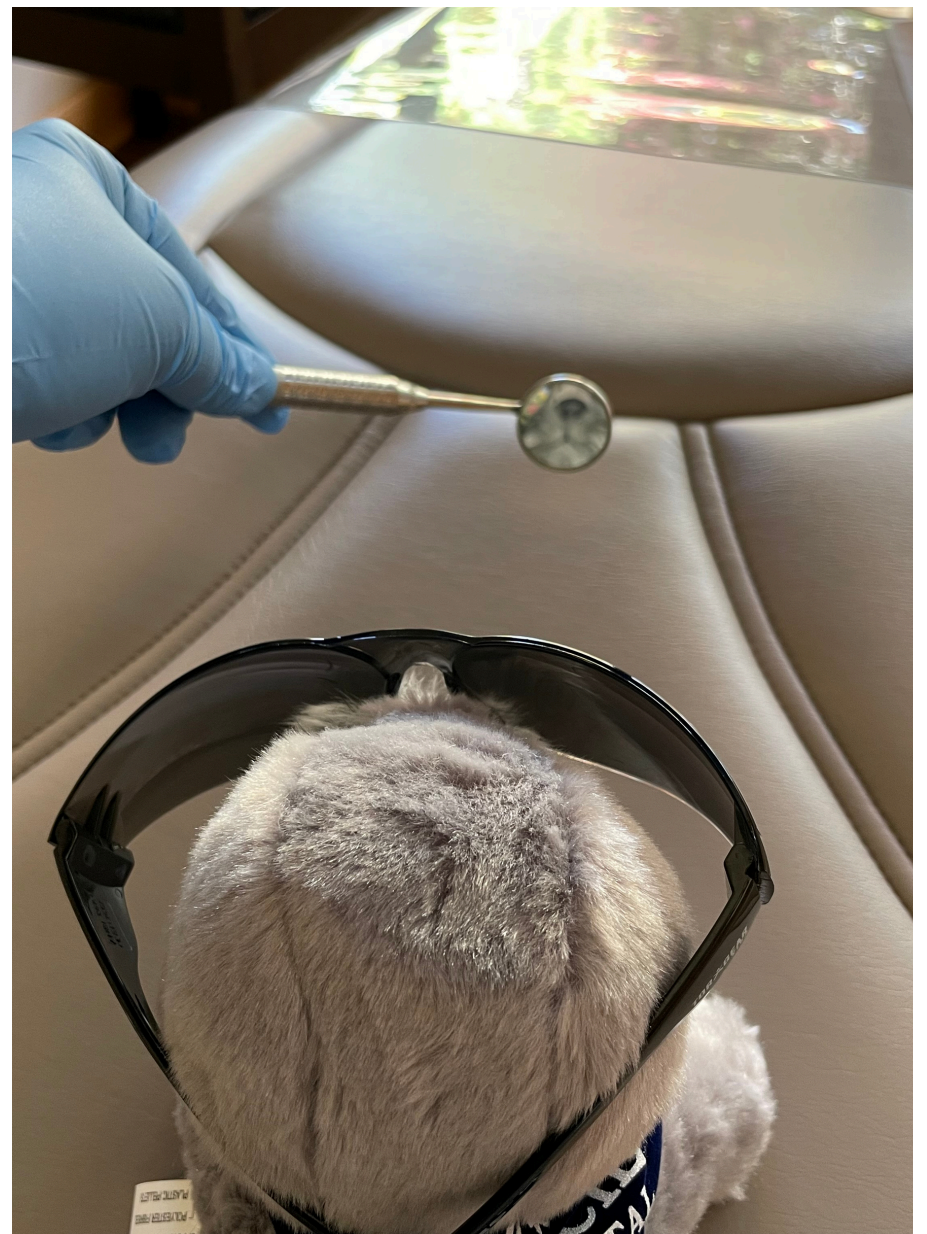

**These are the tools that will help
them see and clean all my teeth.**

**I get my teeth cleaned with special toothbrush.
It is very easy and it spins & tickles my teeth.
The mint or fruit toothpaste tastes YUMMY.
The toothpaste is rinsed off with a squirt gun
and the water is sucked up with the straw, so I
don't have to spit in the sink.**

One of the dentists will come in to meet me. They want to count my teeth too! First they feel my face to check for any tickle bugs. I open big like a dinosaur again, so we can make sure all of my teeth are healthy!

Finally, my hygienist paints fluoride on my teeth with a brush to make my teeth stronger. It tastes like candy! When I am done, all of my new friends are so happy with me! YAY! I did it!

**They give me a bag with a toothbrush,
toothpaste, & floss to take home. I also
get to pick out a toy! I smile so big
because my teeth are clean & healthy!**

When I don't have any cavities, I put my name on the Smile Club for a chance to win a prize. I can't wait to come back!
