Work-Based Learning

Partner with Connect to build the workforce you want.

What is work-based learning?

It's where students combine their education, career training, and soft skills with hands-on experience at real companies like yours.

Partner with Connect to host students for a structured learning activity that takes place in a workplace for a limited amount of time. The purpose is to provide the job seeker with the opportunities for career exploration and skill development, and is a mentoring opportunity for the employer.

The Connect program pays students wages and workman's comp insurance while they learn from you and your team.

As an employer, how can you benefit?

As a work-based learning partner, you'll help train students for the positions you may be hiring for now or in the future.

- No cost to the employer
- No commitment to employee
- Helps workers gain employable, hands-on skills
- Gain a short-term employee while investing in your community

Through this program, youth:

- *Gain experience as well-rounded employees.*
- *Acquire skills for industry credentials, enhancing job applications.*
- *Practice employability skills with real employers, becoming strong team players and workforce-ready.*
