

Working with the Connect Program has been such a smooth process right from the start. Getting set up isn't complicated at all; it's just a matter of reviewing a few documents and signing an agreement. The Connect staff have been an absolute pleasure to work with—super collaborative and supportive. Overall, I view it as an incredible opportunity for any business owner to help their business thrive while also giving youth an experience they might not otherwise have. Research shows that early work experience benefits all youth regardless of where their future takes them, and so we know this truly makes a difference for youth. It's an obvious win-win: with all costs (wages and worker's comp) covered by Connect, all you have to do is provide the environment and duties.
