Helping Others to Help Themselves

Every day we see people with health challenges and disabilities proving that they can live more satisfying, productive lives with access to the right resources. And every day, we see people who can help. This “can do” spirit is why NDAD is here, helping others to help themselves.

NDAD is a charitable non-profit organization that helps people with a wide range of disabilities and medical needs in North Dakota, from specialized equipment or medications to other costly medical travel or services.

NDAD provides assistance on a priority basis according to established guidelines. We coordinate with local school districts, vocational rehabilitation, human service centers and county social services to complement their services without duplication.

How We Help:

Financial Assistance

Funds generated by NDAD are used for personal attendant care, medical equipment and supplies, accessibility, medical travel expenses, medication, transportation, and recreational activities. Our guidelines restrict the use of these types of funds.

Healthcare Equipment Loan Program (HELP)

Through HELP, individuals may borrow durable medical equipment for up to 90 days free of charge. There is no application process or financial qualification.

Organ Transplant Fund

NDAD administers the North Dakota Organ Transplant Fund for transplant recipients and donors. This fund helps individuals alleviate costs associated with transplant operations not normally covered by insurance.

Autism Spectrum Assistance Program (ASAP)

NDAD helps families cope with service gaps for children and adults with an autism spectrum disorder by assisting with medical travel expenses and respite services when no other payment option is available through local, state or federal programs.

Information, Referral and Advocacy

Often people are unaware of available services or how to get help. A major goal of NDAD is to assist people in receiving help through other agencies whenever possible. NDAD supports the rights of people with disabilities, doing all we can to ensure they receive services to which they are entitled from the appropriate agencies. When appropriate, we will refer to disability advocates based on an individual’s needs.

Adaptive Recreational Events and Activities

NDAD recognizes the importance of physical activity. That’s why we sponsor the annual Escape to the Lake extravaganza, where individuals with physical disabilities have the opportunity to water ski and enjoy a recreational summer day on the lake. NDAD also sponsors qualifying individuals with access to other activities. Contact your local NDAD office for information.

Community Fundraising Projects

NDAD is a resource for community fundraisers, which can provide assistance for medical bills, pre-existing bills, and other costs related to health challenges. We provide consultation, act as custodian of the funds and pay expenses from the fund as directed by the chairperson. Because NDAD is a 501(c)(3), these donations are tax deductible if you itemize your taxes.
