

Exterior Coatings

Coatings for Exterior Use

Available products/systems for use in exterior applications.

Exterior Solutions

Exterior Deck Primer

013, Fast Set Water Based Epoxy Primer is the most commonly used primer for these exterior systems. This product has a quick cure time, and is available in clear or with pigment packs.

Exterior Deck Base Coat

863B, Base Coat is a single component a polyurethane waterproofing coating used as a base coat. This coating is intended to be used when additional waterproofing is needed.

Flexible Binder

865IT, Flexible Binder is a single-component, moisture cured, aromatic polyurethane coating. This coating withstands extreme environmental conditions and offers excellent aggregate binding qualities.

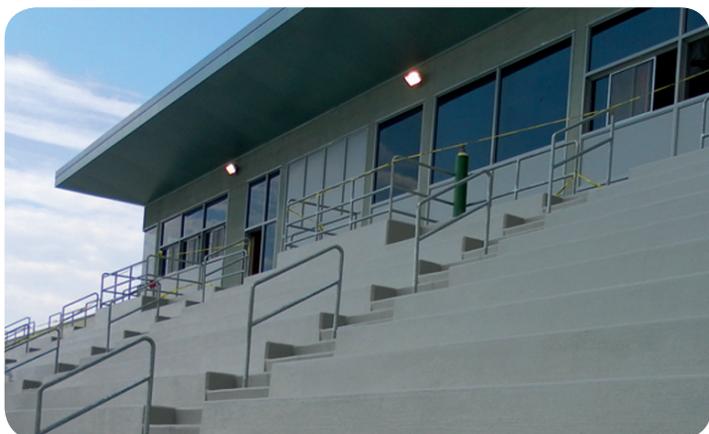

Broadcast Step

A variety of decorative options are available including: decorative flake chips, decorative quartz sand, or anti-slip aggregate.

Protective Topcoat

866T, Protective Topcoat is a single component coating that provides a protective layer. This coating has excellent water resistance and weathering characteristics. The product has a rapid cure and can be accelerated. Available in clear and colors.

See technical data sheets for individual products for complete details.

Superior waterproofing, easy to apply coatings!

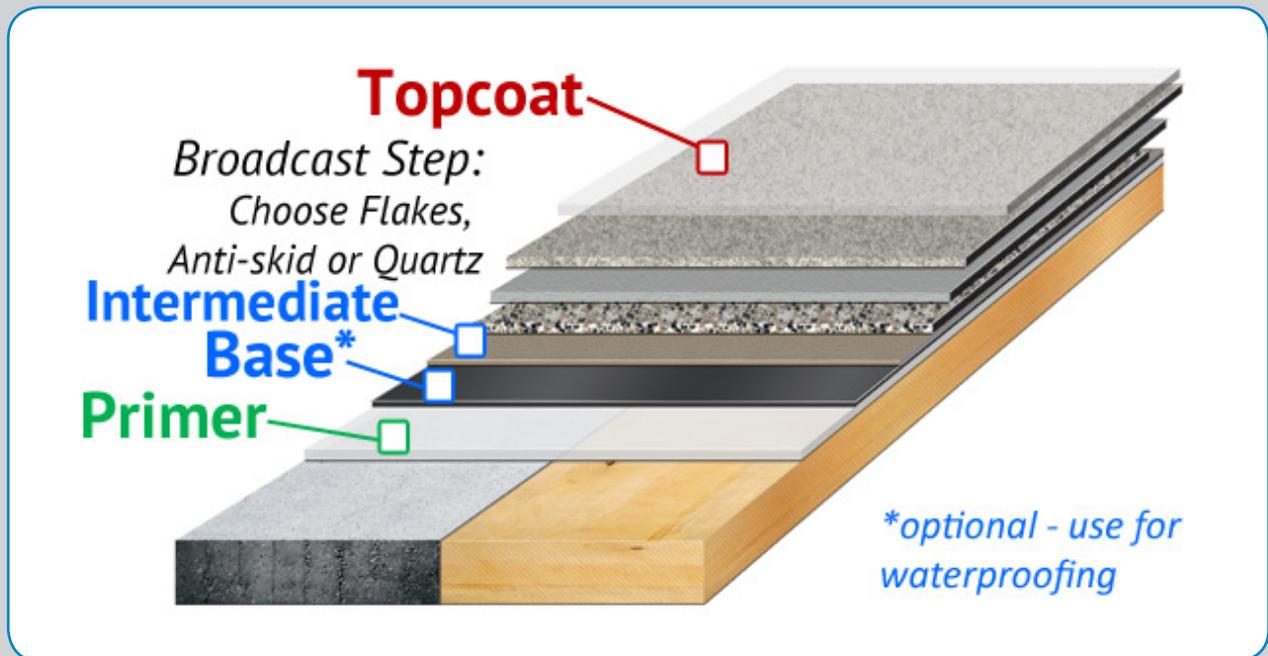

This easy to install outdoor tolerant system is UV resistant, extremely flexible and provides excellent waterproofing characteristics. The elastomeric coating systems are able to bridge substrate cracks and are flexible in cold temperatures.

This system can be applied in a variety of exterior residential, commercial, and industrial areas. The coatings can be applied over plywood or concrete decks.

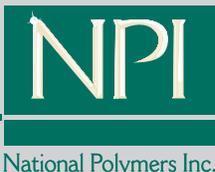

Typical Applications

- Pedestrian Walkways
- Balconies and Sun Decks
- Plaza Decks
- Parking Structures
- Patios
- Loading Dock Areas
- Emergency Entrances
- Rooftop Decks
- Porches and Walkways
- Around Pools

Exterior Solutions

A variety of decorative options are available for these outdoor tolerant systems. Choose from paint chips, decorative quartz, or solid colored with anti-slip aggregate.
