# Poly Furniture for Life

## About Our Materials

**What is Poly Lumber?** Poly Lumber is derived from post-consumer polyethylene bottle wastes such as milk and juice containers. This material is cleaned in a decontamination process to a purity level of over 99% HDPE. It is then extruded into rigid board stock. Unlike composite lumber, poly lumber is constructed of over 90% high density polyethylene and contains no wood fillers, resulting in a product that will last a lifetime.

**Will It Fade?** Our Poly Lumber contains UV stabilizer which minimizes material breakdown from prolonged sun and weather exposure; however, red, orange and yellow are the most susceptible to fading.

**Poly Furniture Warranty** Our furniture comes with a limited warranty covering defects in workmanship, the integrity of the poly lumber material and construction hardware. Minimal color fading is excluded from the warranty. Specific warranty information is available from each series of furniture in this catalog. Ask your sales representative for more details.

**Hardware** We select hardware components for durability, including powder coated, stainless steel and zinc coated. Most screws and bolts are 316 Marine Grade Stainless Steel.

## Consider the Benefits

- Will not grow mildew, warp or rot
- UV Stabilized—no winter storage required
- Chemical free
- No painting or staining
- Does not absorb water

## How this catalog works!

This catalog is divided into colored sections. Each section is a different series. At the end of each series are the colors available for that furniture in that section. It is best to stay within each series with your order, however you can ask your sales rep which items you can mix or match. Also you will notice

“Standard and Natural” prices. Standard price is for the regular standard color poly (see color swatch page). It is more smooth. The Natural price is for the Natural color poly (see color swatch page) and has more of a wood grain design in the material.

Vermillion OH   Cape Hatteras NC   Fire Island NY   Split Rock MN   Cape Cod MA   Cape Henry VA   Cape May NJ   Marblehead OH   Standard Lighthouse Non Replicated

Lighthouse Base

Available in all poly.

Our Hybrid lighthouses are made of Azek in the center and poly top and base since the top and base are the first part to be affected by the weather. All sizes of our Poly lighthouses can be customized in any of our standard colors shown on page 61. All lighthouses come standard with a 25 watt bulb, standard socket and 8' cord.

For optional interior lighting in tower, and base, in electric or solar, add 25% onto regular prices.

## Heavy Duty Xtreme Clean

BG32EC

For use on colored poly outdoor furniture. Not white. 32 oz. **\$29**

All-surface cleaner and degreaser removes tough stains, dirt, bird deposits and more.

## Care for Poly Furniture: Easy to Care for

Our Poly Furniture is not affected by most corrosive substances, and will not promote bacterial growth. To maintain the beauty of your furniture, simply clean it regularly with non-abrasive soap and water or our new cleaner. While most colors need to be cleaned a few times per year, certain colors such as white (but not limited to this color) need to be cleaned more frequently in order to maintain its original beauty. In extreme situations and with colors such as white, spray the furniture thoroughly with a nonabrasive cleaner then scrub the furniture using a soft bristle brush and rinse off with warm, clean water. If needed, spray the furniture with nonabrasive cleaner and wash it using a high pressure washer. Do not place the tip of your pressure washer closer than 8" to 10" from the furniture or it will tear into the furniture.

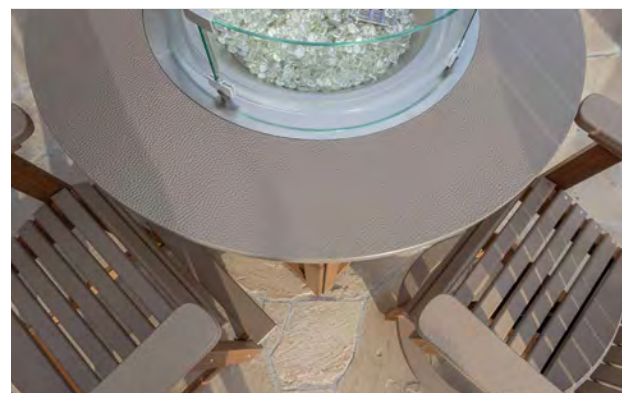

Do not place flower pots or any items on furniture that will leave stains. Do not place hot items directly onto the furniture to avoid melting.

## Cleaning Umbrellas

100% Solution-Dyed Polyester Fabrics: Grade C (Our exclusive 4800 series) Limited warranty against fading: 4 Years

MOST STAINS ON SOLUTION-DYED FABRICS CAN BE CLEANED UP WITH A MILD SOAP AND WATER SOLUTION. Solution-Dyed fabrics should be cleaned regularly before substances such as dirt, etc., are allowed to accumulate on and become embedded in the fabric.

The fabric can be cleaned without being removed from the umbrella. Simply brush off any loose dirt, etc., clean with warm water (no more than 100° F) and a mild natural soap. Rinse thoroughly to remove soap. When using liquid detergent, it may be necessary to re-apply a water repellent treatment, such as Water Repel on page shown above. When washing or cleaning, DO NOT SUBJECT TO EXCESSIVE HEAT as the fabric will shrink. DO NOT STEAM PRESS OR DRY IN ELECTRIC OR GAS DRYERS. Allow fabric to air dry. In case Solution-Dyed fabrics are stored during the winter season, it should be cleaned, allowed to air dry and stored in a dry, well ventilated area.

Time  
Well Spent

*With Unique Comfort  
and Quality*
