

Secur-A-Pool® Mesh Styles

KEY FEATURES

- The new, improved and increased weave count contained within our polypropylene mesh fabric ensures added strength, sustainability and shading protection
- Contains our patented mesh material blend, which eliminates any standing water hazards by allowing water and melting snow to drain through and minimizing damage risk, as well
- Automatically screens out dirt and debris for quick, easy and fuss-free spring time opening
- Created with the finest materials in the industry for strong, safety-first protective results
- Secures pool from children, pets and stray animals.
- Tamper-proof design prevents entry without an installation rod, while still allowing for installation and removal in mere minutes.
- Improves the look of your pool in the off-season.
- Fastest turnaround times in the industry!*
- Meets or exceeds all safety cover performance standards as set forth in ASTM F 1346-91.
- Standard 12-Year Limited Warranty.
