REGISTRATION AND POLICIES

- For all sessions of a brochure (Winter, Summer, Fall) the first session of the lessons will open to members then resident/non-members and finally non-resident/non-members per the dates set in the brochure. Subsequent sessions of that brochure season open on the last day of current session for those with report cards (Changing of times or dates will not be honored until after those with report cards for the current class have had a chance to register. Exceptions may be for leveling up from level 3 or parent/youth. The times may not match for next level); for those without report cards, online registration begins at 9:30pm the last day of class and in-person/phone registration begins the following day.
- Refunds can be requested up to 7 days prior to the start of class without question. After that no refunds will be given. Participants take the risk of schedule changes or changes in health.
- If the class is full, you may ask the front desk staff to add your name to the CURRENT waiting list.
- If your child has any special needs, it would be helpful if you would inform the instructor/Aquatic Supervisors, before the first day of class, so they can better work with your child.

AQUATIC WAIT LIST

The main purpose of the wait list book is to determine if there is a need to add additional classes. On occasion if there are openings in classes, or if we have the ability to add additional instructors, we will call those who have their name in the wait list book.

- Having a name on the wait list does not guarantee that you will receive a phone call or a spot in a class.
- It is your responsibility to call the front desk at the end of a session to see if any spots have opened up. Many times children are transferred to other classes or decide not to take a class which results in spots becoming available. The aquatic supervisors will not check the wait list until a few days before the start of a new session with the intent of trying to fill spots that are still open.
- Please be aware that when phone calls are made to those on the wait list, registration is on a first come basis no matter what number you are on the wait list. This is only a courtesy call letting you know that at that particular time, there are openings in the class if you still wish to sign up. It does not mean that a spot is being held for you and the spot(s) may be filled by the time you call back.
- It does not mean that a spot is being held for you and the spot(s) may be filled by the time you call back.

YOUTH CHESS LESSONS (Meeting Room)

This class will teach students to love and excel at the game of chess.

Chess has been proven to improve a child's IQ, attention span, and reading test scores through numerous studies over the years. Chess also promotes patience, resilience, and sportsmanship as players learn to accept wins and losses gracefully. This program involves teaching kids the rules, strategies, and tactics of the game through structured, interactive lessons and practice sessions. Additionally, the social interaction and camaraderie during games contribute to the overall growth and cognitive development of children. The program often includes tournaments and competitions to foster healthy competition and critical thinking skills.

Instructor: National Chess Expert, Damon Rucker, has a unique background of 22 years of chess coaching and decades of entertainment experience with the Cleveland Cavaliers. This special combination ensures that classes are both impactful, and absolutely a blast!

Civil War Nurses by Renee Atkinson

At the outbreak of the Civil War, nursing was a male profession, with many nurses being fellow soldiers. Women were considered too delicate for the occupation. However, the war changed public opinion as demand outweighed the supply of nurses. Women, rising to the need, proved they were not only capable, but often superior caregivers. Explore the requirements and dangers faced by female nurses on the battlefield and in hospitals. Discover the stories about outstanding nurses who went above and beyond the call of duty, including the only woman given permission by Generals Grant and Sherman to serve on the front lines. These brave and dedicated women opened the door for the skilled occupation of nursing we know today.

Webinar: For the Love of Mars—A Human History of the Red Planet with Smithsonian Curator, Matt Shindell

Mars and its secrets have fascinated and mystified humans since ancient times. Due to its vivid color and visibility, geologic kinship with Earth, and potential as our best hope for settlement, Mars embodies everything that inspires us about space and exploration. *For the Love of Mars* surveys the red planet's place in the human imagination, beginning with ancient astrologers and skywatchers and ending in our present moment of exploration and virtual engagement.

You're invited to come learn alongside Matt Shindell, National Air and Space Museum curator, as he introduces viewers to historical figures across eras and around the world who have made sense of this mysterious planet. By focusing on the diverse human stories behind the telescopes and behind the robots we know and love, Shindell will show how Mars exploration has evolved in ways that have also expanded knowledge about other facets of the universe.

Webinar: How we Create Pandemics - From Our Bodies to Our Beliefs with Smithsonian Curator Sabrina Sholts

Join us for this enlightening pre-recorded presentation with Smithsonian curator Sabrina Sholts as she talks about how the very fact of being human increases our pandemic risks—and gives us the power to save ourselves. Weaving together a wealth of personal experiences, scientific findings, and historical stories, Sholts brings dramatic and much-needed clarity to one of the most profound challenges we face as a species. Though the COVID-19 pandemic looms large in Sholts's account, it is, in fact, just one of the many infectious disease events explored in *The Human Disease*. With its expansive, evolutionary perspective, the book explains how humanity will continue to face new pandemics because *humans cause them*, by the ways that we are and the things that we do. By recognizing our risks, Sholts suggests, we can take actions to reduce them. When the next pandemic happens, and how bad it becomes, are largely within our highly capable human hands—and will be determined by what we do with our extraordinary human brains. **Registration required.**

You're invited to grab your family and friends and join us as Smithsonian scientists highlight information found in the Smithsonian's book, *Extinctopedia: Discover what we have lost, what is at risk, and how we can preserve the diversity of our fragile planet*. In this talk, you will discover: animals that are no longer with us, endangered animals at risk of extinction, organizations that aim to protect animal life, and strategies for preserving biodiversity. **Registration required.**

MUSTANGS ON THE GO! cont.**TOMMY DORSEY ORCHESTRA**

In Big Band history, the Tommy Dorsey Orchestra is recognized as one of the best all-around dance bands. It could swing with the best of them, and no other band could come close to Tommy's when it came to playing ballads. Tommy Dorsey, "The Sentimental Gentleman of Swing", was a master at creating warm, sentimental, and always musical moods – at superb dancing and listening tempos. Tommy sustained these moods through the arrangements of the likes of Paul Weston, Axel Stordahl and Sy Oliver, and he showcased singers who could project them brilliantly. The music world lost Tommy at an early age, but his legacy of great music has transcended time. The Tommy Dorsey Orchestra still represents explosive and swinging Big Band entertainment at its very best.
