

In over 25 years of business, we have never run out of salt, even when there were industry-wide shortages.

Ice Control

A major part of our ice control program success is being able to stock plenty of ice melt material – both bulk & bag, as well as liquid.

We approach ice control as both a proactive (anti-icing) and a re-active (de-icing) measure, depending on the weather and conditions.

Our goal is not to let any snow get compacted or let any ice build up during a snow event. We keep aisles and walkways open and accessible by plowing, shoveling and applying salt as needed, for as long as the storm continues.

ARE YOU READY?

Specializing in high-traffic sites including commercial, retail and apartment/condos.

"Slip and falls cost American businesses \$70 billion annually." National Safety Council

Don't become a statistic, call us!

Avoid Costly Shutdowns

When a storm is imminent, we are on the job 24/7 monitoring the weather with our contracted meteorologist firm. We keep you informed of changes and are standing by with the necessary equipment and manpower to handle anything Mother Nature can throw at us.

We provide site checks after an event for drifting, entrance and car spot clean-up, plus additional ice control.

When it comes to snow and ice removal, count on Createescape. Always prepared for changing weather conditions, we can weather any storm – big or small.

As a subcontractor-free provider, we assure you consistency, efficiency and dependability.

We are members of:

- SIMA – Snow & Ice Management Association
- ASCA – Accredited Snow Contractors Association

We Are!

Zero at-fault slip & falls in over 25 years.

We are a fully insured company that takes a pro-active approach to clearing snow & ice. We keep accurate records in order to help protect your company and tenants from slip and fall claims.

Routes covering all of Southeastern Wisconsin.

Services:

- ❄ Snowplowing
- ❄ Sidewalk Clearing
- ❄ Snow Removal
- ❄ De-icing
- ❄ Anti-icing
- ❄ 48-hour Billing
- ❄ Spring Repair

Blizzard Contingency Plan

When a single storm drops more than eight inches of snow and is combined with high winds, plus freezing temperatures, our blizzard plan goes into effect.

We have on-site fuel, bulk & bag salt, spare trucks, loaders, plows & parts inventory as well as a shop mechanic to make sure we are covered in the event of a breakdown.

Communications

Our office is fully staffed during a snow event. All of our equipment is GPS monitored. We also maintain communications with our snow crews via two-way radios and can re-route our team as necessary to meet the needs of our clients.

Removal

We have the equipment to stack up piles and to truck snow off site if the need arises.

COMMERCIAL SNOW REMOVAL SINCE 1993.

SERVICE YOU CAN DEPEND ON.
