

Journeyman Electrician Job Summary

We have an immediate opening for an experienced and reliable Journeyman Electrician. You will join our team of highly-skilled electricians to install, repair, and maintain a variety of electrical systems, including electrical panels, lighting, and motor controls. All of our staff are familiar with installing power supply wiring and troubleshooting commercial, industrial and residential types of electrical components. Our ideal candidate has at least five years of professional experience and a current electrician's license.

Journeyman Electrician Responsibilities

- Carrying standard equipment and parts with you at all times.
- Commuting between the locations at which you will work.
- Performing inspections, conducting assessments, and liaising with clients to ascertain the issues that warrant attention.
- Choosing the most apt course of action in light of project constraints.
- Selecting, installing, and preserving the functionality of wires, plugs, panelboards, switchgear, switchboards, and similar.
- Setting up and maintaining electrical machines.
- Monitoring inventory to ensure an adequate stock.
- Logging time and resources spent on each task to calculate costs.
- Ensuring adherence to all relevant safety regulations.
- Providing professional, friendly, and prompt services.

Journeyman Electrician Requirements

- High school diploma or equivalent.
- Completion of a relevant apprenticeship.
- Valid state license that permits you to practice as a journeyman electrician, if required.
- Appropriate certificate or degree will be advantageous.
- Good arithmetic skills.
- Excellent critical thinking skills.
- Observant and thorough.
- An active listener with top-notch verbal and written communication skills.
- Physically fit and capable of carrying up to 50 pounds.
- Ability to work in constricted areas.
- CDL= + \$1.00 per hour
