

NOW HIRING – GENERATOR TECHNICIAN

Ainsworth Electric – Generator Division

Ainsworth Electric is looking for a **Generator Technician** to join our growing Generator Division!

Our **primary focus is residential standby and whole-house generators**, so we're looking for someone who enjoys troubleshooting, working with their hands, and providing great service to homeowners.

WHAT YOU'LL DO

- Service, troubleshoot, and repair **residential whole-house generators**
 - Perform routine generator maintenance and inspections
 - Diagnose electrical and mechanical problems
 - Troubleshoot generator faults and determine necessary repairs
 - Perform generator startups, testing, and system checks
 - Work with transfer switches and related equipment
 - Explain generator operation and repairs to homeowners
 - Complete service documentation and communicate job details with the office
 - Maintain a clean and professional work area
 - Follow company safety procedures and manufacturer specifications
 - Assist with commercial generator work and emergency/storm response when needed
-

WHAT WE'RE LOOKING FOR

- Previous **standby/whole-house generator experience preferred**
- Electrical, mechanical, HVAC, automotive, or similar technical experience is a plus
- Strong troubleshooting and problem-solving skills
- Ability to read and understand wiring diagrams and technical information
- Ability to work independently in the field

- Professional and courteous when working in customers' homes
 - Strong communication and customer-service skills
 - Valid driver's license with a good driving record
 - Willingness to learn and continue developing your generator skills
-

☆ EXPERIENCE WITH THESE IS A PLUS

- Generac
 - Kohler
 - Briggs & Stratton
 - Cummins
 - Automatic transfer switches
 - Natural gas and LP systems
 - Residential electrical systems
 - Generator monitoring systems
-

📁 WHY AINSWORTH ELECTRIC?

Ainsworth Electric has built its reputation on **quality workmanship, dependable service, and putting the customer first.**

This is an opportunity to build a long-term career specializing in **residential standby generators**, while also gaining experience with commercial generator systems and emergency storm-response work.

🧐 THE RIGHT PERSON FOR THIS JOB

We're looking for someone who is **reliable, mechanically and electrically inclined, willing to learn, and takes pride in doing the job right the first time.**

If you enjoy troubleshooting, working with your hands, meeting customers, and solving problems in the field, **we'd like to hear from you!**

✉ **Interested in joining the Ainsworth Electric team?**
