

Unloading truck of raw materials

We can help you...

- Some of the industries we service are rail, power, mining, heavy steel fabricating, custom machine shops, and nuclear containment vessel manufacturers.
- Dump hoppers can be provided at equipment locations to allow transport of small materials to roll-off containers of various sizes.
- Luger boxes moved by overhead cranes can be provided for larger materials.
- Flatbed trailers can be provided for long term loading of large sheet material or delivered to site upon request.
- All roll-off containers, flatbeds, or dump trailers can be requested for live loading to your facility or job site.

Who We Are

About Us

American Steel Processing is a privately owned metal recycling company that specializes in the purchase and processing of both ferrous and non-ferrous metals. With over forty years of industry experience, we are strategically situated just North of Pittsburgh, in Crescent Twp, on Route 51. This location provides easy access from all compass points via Routes 51 & 65, and I-79. Areas include From the South: Crescent, Moon Twp, Coraopolis, McKees Rocks, Sewickley, Ambridge, and Leetsdale. To the North: South Heights, Hopewell, Aliquippa, Monaca, Beaver Falls, etc.

| ➤ Dirty Aluminum | ➤ Stainless Steel |
| ➤ Alum / Copper ACR's | ➤ Plate & Structural |
| ➤ Copper | ➤ Tin |
| ➤ Brass | ➤ Old Cars |
| | ➤ And more... |

What we do

We purchase all types of scrap metal. These range from byproducts of your fabrication process, building demolition, to property clean out. Product can be brought directly to our yard, or for large projects, we can offer a range of *free* transport services. Once the product is in our yard, we process it into types and sizes to ready and transport it for use to mills and foundries for purchase.
