

I am writing to share an important update regarding your care.

After many years of serving our community through my private OB/GYN practice in Apple Valley, I have made the heartfelt decision to close my private office. I want to sincerely thank you for trusting me with your care and allowing me to be part of your health journey.

I am pleased to announce that I have joined Community Health Systems, Inc. (CHSI), a federally qualified health center dedicated to providing high-quality, comprehensive, and patient-centered women's health care throughout the High Desert. Expect the change date by the end of July 2026

Together with CHSI, we are establishing a new Women's Health Clinic in Apple Valley located at the former site of my private OB/GYN practice (same location), where I will continue to care for you and meet all your OB/GYN and related medical needs. This clinic will offer a wide range of services, including prenatal care, well-woman exams, family planning, and specialty care in a warm and welcoming environment.

In addition, CHSI has opened a new clinic in Apple Valley just one mile away, offering Primary Care, Chiropractic, and Behavioral Health services. These services are available to you and your family at one convenient location designed to support whole-person care.

New Clinic Information:

CHSI Apple Valley Wellness Center
15998 Quantico Road Apple Valley, CA 92307
(760) 242 - 2271
"Opening Soon"

CHSI Apple Valley Health Center
20254 US Highway 18, Apple Valley CA 92307
(760) 483 - 9444
"Open Now"

Your medical records will be securely retained and if you choose to continue your care with me at CHSI, they can be transferred upon your request and with your written consent. Our care team is here to assist you with this process, ensure a smooth transition, and help with appointment scheduling and any necessary paperwork.

It has been an honor to care for you, and I look forward to continuing that care with CHSI at the same location you are familiar with. Although the practice is now part of Community Health Systems, Inc., you will still receive care at the same site, now enhanced with expanded services and support. Please don't hesitate to contact our team with any questions or to schedule your next appointment.

With sincere appreciation,
Dr. Viruch Vachirakorntong, MD ,FACOG
