

Luster Max Plus

Environmentally Safe

Luster Max Plus 20 Reasons

1. Provides easier ice removal
2. Waterproofs concrete internally as well as externally
3. Makes concrete virtually impermeable
4. Reduces dusting
5. Provides a more abrasion and crack resistant surface
6. Provides internal humidity stability and restricts vapors transmission
7. Increases strengths
8. Improves fungus and mildew resistance
9. Remains resilient during movement
10. Enhances surface bonding quality
11. Improves thermal and acid-chemical resistance
12. Eliminates or significantly retards efflorescence
13. Eliminates internal water migration
14. Provides increased density
15. Resists oil while repelling water
16. Enhances surface traction
17. Resists freeze-thaw damage
18. Lowers chemical reaction and creep deformation potential
19. Requires no special surface maintenance
20. Preserves concrete's integrity

For all of your masonry and concrete needs

Luster Max Plus will improve your concrete inside and out. Try it and see!
