

Why?

Homeowners and professionals alike are choosing aluminum railings and fencing by AgeCraft not only to solve safety problems, but also because of their beautiful decorative features, easy one-man installation and maintenance free aspects.

Maintenance Free

No painting costs, no rust and scale to scrape off, no replacement of rusted sections.

Easy Installation

AgeCraft railings and fences are easily self-installed and adjustable to fit any angle needed.

Structurally Superior

Heavy-gauge, super-strong aluminum extrusions are immune to things like "roughhousing" youngsters, banging furniture and crowded patio parties.

Weldless Design

No welds to break, adding additional strength and safety.

Decorative Features

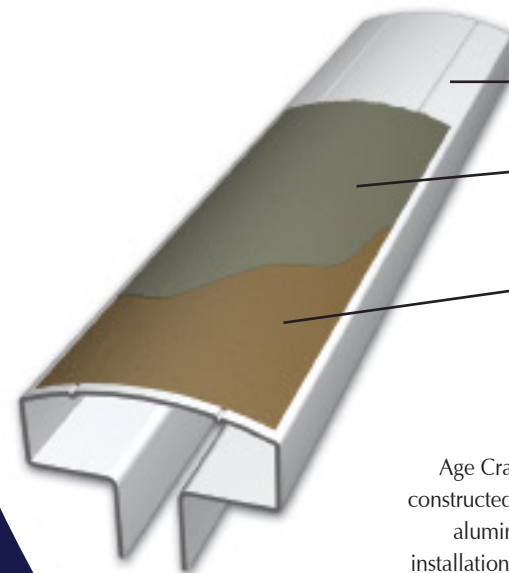

AgeCraft railings and fencing is available in different styles for a variety of decorative effects.

Baked On Enamel Finish

Easy soap and water cleaning and periodic waxing will keep your AgeCraft railing looking like new.

1 3/4 Top Rail

Acrylic Enamel is baked on

Alodining cleans and pretreats all surfaces

Mill Finished Extrusion

Age Craft Super Proline and fencing is constructed with a heavy-gauge, super-strong aluminum for the safest and longest installation life. The all rivet design provides durability and makes it easy to adjust sections to your step or ramp angles.

2 inch or 3/4 inch wide picket

Specifications

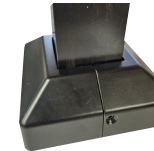

Extruded Aluminum in 6063-T6 Alloy
Aluminum Die Cast Fittings in 380.1 Alloy
Extrusion Finish is Electrostatically Applied and Baked on
Castings are Powder Coated Paint Load Tested to Exceed BOCA Requirements

Newel Post 2 X 2
Use for end post, corner post or as part of a crossover kit for sections longer than 8'

Top and Bottom Horizontal Swivel
Used on level applications when the corner is not a 90 degree angle.

Newel Post Flange Cover
Used to hide installation screws, available black or white.

Crossover Cap
Used in Crossover Kit to allow a continuous top rail on sections longer than 8'

Top and Bottom Straight Connector
Used on level applications.

Top and Bottom Round Column Adapter
Used to make an even connection to an Age Craft fluted round column.

Top and Bottom Rail Utility Connectors
Used on applications that are not level, ie, steps or ramps, to achieve the correct pitch.

New Solar Cap
Optional Decorative Cap, black or white.

Stub Shoe
Used to anchor the 1/2" extended picket to floor.

Ball Top
Optional decorative newel post cap

Components

Styles
