

A1 DOG TRAINING · SECAUCUS, NJ

Puppy Potty Tracker

Track your puppy's routine, spot patterns, and build consistent house-training habits.

Puppy's Name

Age

Week Of

How to use: Write down each potty-related event as it happens. Use P for pee, B for bowel movement, and note meals, water, naps, crate time, play, accidents, signals, and rewards. After a few days, look for repeat timing patterns.

Daily Potty Log

Time	Potty / Event	Location	Success? Y / N	Accident / Signal / Reward / Notes

Pattern Check

Typical time after waking:		Typical time after eating:	
Typical time after drinking:		Typical time after play:	
Most common potty signal:		Most common accident location:	

Consistency tip: Take your puppy out after waking, meals, drinking, play, and naps; reward successful outdoor potty trips immediately. If accidents are frequent or your puppy's bathroom habits change suddenly, consult your veterinarian.
