## Country Villa Newsletter

Wherever you go,  
no matter the weather,  
always bring your own sunshine.

Daniel Webster defines the word Harbinger as “A person or thing that announces or signals the approach of another ; a forerunner of something”.

With that being said, surely the robin is a definite harbinger of spring.

As we all take notice of the returning robins, we also see other harbingers of spring as well. House windows open up on a sunny afternoon. Crocus, tulips and daffodil bulbs push their way above ground and those silver, fuzzy pussy willows warmly say

HELLO SPRING!

There are harbingers of spring everywhere and they will multiply even more in the new month. The “April showers” certainly do bring May flowers!

## Florence Stolzman

Florence was born on April 19 1946 in Elcho, Wisconsin, a small town just north of Antigo. She was one of five siblings and grew up on a farm where she loved tending the cows and other livestock. After graduating high school, she moved to Appleton with her sister. She worked as a waitress for many years until she met her husband James Stolzman. They were married in a small church ceremony in 1970. Florence and James were blessed with two lovely children, Michelle and Joe. Her husband and children were the love of her life although unfortunately after seventeen years of marriage Florence became a widow. Through this challenging time Florence recalls her faith in God, her incredibly hard work ethic and her devotion to her children as her guiding light. Once her children were school age, Florence reentered the work force. During her career, she took great pride in working at Manor Care and other local nursing homes in which she was well-loved and really enjoyed socializing with the residents. She especially loved watching Days of our Lives and Wheel of Fortune as well as gardening, reading, listening to music and spending time with her 5 grandchildren.
