

BUENO MIXERO

DANGER:
KEEP OUT OF REACH OF CHILDREN

Causes serious eye damage.
Causes skin irritation.
May be harmful if swallowed.

BUENO MIXERO

Compatibility Agent for Liquid Fertilizer-Pesticide Mixtures

PRINCIPAL FUNCTIONING AGENTS:

Nonionic surfactant, fatty alcohol glycoside, and amino alcohol... 45.4%
Other..... 54.6%
Total..... 100.00%

PRECAUTIONARY STATEMENTS

Wear chemical goggles or face shield and protective gloves and clothing. Wash affected areas thoroughly after handling.

If in eyes:	<ul style="list-style-type: none"> •Rinse continuously with water for several minutes. •Remove contact lenses if present and easy to do; continue rinsing. •Immediately call a poison control center or doctor/physician.
If on skin or clothing:	<ul style="list-style-type: none"> •Wash with plenty of soap and water. •If skin irritation occurs, get medical advice/attention. •Take off contaminated clothing and wash before reuse.
If swallowed:	<ul style="list-style-type: none"> •Rinse mouth •Call a doctor or poison control scenter if symptoms occur or you feel unwell. y
If inhaled:	<ul style="list-style-type: none"> •Move to fresh air and keep comfortable for breathing. •Call a doctor or poison control center if smptoms occur or you feel unwell.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also vcontact EMERGENCY TELEPHONE NUMBERS:

PRODUCT INFORMATION

Bueno Mixero is a compatibility agent for direct addition to liquid fertilizers. It should be used where combining a liquid fertilizer and a pesticide is desired and improved stability of the mixture is required. Compatibility of liquid fertilizer-pesticide mixtures is essential to ensure trouble-free, accurate and uniform application. Crop protection chemicals do not always mix with liquid fertilizers or their components may separate too quickly, which renders their combination impractical. Incompatibility may be due to pH, concentration and type of certain salts and percentage of water content in the liquid fertilizer. Bueno Mixero is effective in improving compatibility and stability of most liquid fertilizer-pesticide mixtures. Bueno Mixero is completely soluble in liquid fertilizers such as 28-0-0.

DIRECTIONS FOR USE

Add Bueno Mixero to the fertilizer solution at the rate specified below and thoroughly mix prior to the addition of the pesticide. Add the required amount of pesticide while agitating the mixture and allow to mix several minutes before application.

USE RATES

Jar Test for Compatibility Prior to Use.

LIQUID NITROGEN FERTILIZERS – Use 1 to 2 pints/100 gallons of fertilizer (or 0.5 to 1.0 liters/400 liters).

LIQUID MIXED FERTILIZERS – Use 2 to 3 pints/100 gallons of fertilizer (or 1.0 to 1.5 liters/400 liters)

Although liquid fertilizer-pesticide mixtures prepared as suggested above may be stable from a few hours to overnight, it is advisable to apply the mixture as soon after preparation as is practical. Agitation during application is recommended, when available. Always agitate before using if mixture has been allowed to stand.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container only and keep tightly closed. Store in closed storage areas. Use caution when moving, opening, closing or pouring.

PRODUCT DISPOSAL: Dispose of contents in accordance with all government regulations. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of federal law. Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Dispose of container in accordance with all government regulations. Triple rinse (or equivalent), then offer for recycling, if available, or reconditioning, if appropriate.

Alternatively, puncture and dispose of the container in a sanitary landfill, or by other procedures approved by state and local authorities. Recycling cleaned containers is the best option of container disposal. ACRC (Agricultural Container Recycling Council) operate a national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org.
