

Oil Lock

DRIFT CONTROL & SPRAY DEPOSITION AID

GENERAL INFORMATION

Oil Lock enhances canopy penetration and leaf surface coverage while reducing driftable fines. When mixed with certain pesticides or fertilizers, some adjuvants may increase the risk of crop injury (phytotoxicity). Prior to using Oil Lock, the applicator or crop advisor should be familiar with the specific pesticide mix, have prior experience using Oil Lock with it, or perform a phytotoxicity test to ensure crop safety.

BENEFITS

- ▶ Enhances canopy penetration
- ▶ Improves leaf surface coverage
- ▶ Reduce driftable fines

RATES

For use with herbicides, insecticides and fungicides.
Use 3-6 oz. per acre

INGREDIENTS:

Principal Functioning Agents:

Modified soybean oil and proprietary surfactant blend.....100%

CONTAINS NO NPE OR APE

: 15%

Proudly Made
in the USA
