Associates in Mental Health Consent for Treatment & Financial Policy

TREATMENT

You and you clinician will work together to identify goals and options. The length of time in treatment will vary according to individual needs and will be discussed throughout the course of your care. You are encouraged to talk as openly as possible about the problems you are experiencing so that your clinician can better assist you in treatment planning. Your clinician will inform you about treatment options and will include potential benefits and risks associated with those options. You do have the right to refuse treatment. As mental health treatment is an inexact science, no guarantees can be made as to the success of such treatment.

PAYMENT POLICIES

We accept cash, personal checks, debit cards, MasterCard, Visa, American Express and Discover. Payment of copays and deductibles are due at the time of service.

Associates in Mental Health schedules appointments by a block of time for each patient. If you are unable to attend your scheduled appointment, we reserve the right to charge the full office fee for any late notice cancellations or missed appointments. Your insurance will generally not cover this charge. If you have any questions regarding this policy, please discuss them with your clinician.

As insurance is a contract between you and your insurance carrier, you are ultimately responsible for payment of all charges. You must provide proof of insurance at the time of your initial visit and are responsible for providing this office with changes in insurance coverage. Failure to do so may result in denial of you claim. As a matter of courtesy to our patients, we will submit charges to your insurance company. Any amount that your insurance company will not be paying such as co-pay or deductible is due from you at the time service is rendered. If your insurance company has not paid within sixty days or denies coverage, the balance will be billed to you for immediate payment. If you do not have insurance, payment in full is required at the time of service. If there are any problems with meeting your financial obligations, please speak with your clinician.

Some managed car companies require the patient to get **PRIOR** approval and an authorization for their visit. If you fail to get necessary prior approval for your visit, payment in full is required at the time of service.

If someone other than the patient, or the parent/legal guardian who is bringing the patient to the initial appointment and that person is not responsible for the account balance, then legal documentation MUST be provided in order for us to send statements to the responsible party.

If a patient's bill remains unpaid, Associates in Mental Health reserves the right to provide your name, basic identifying information and the amount of the unpaid balance to collection services or an attorney.

ASSIGNMENT OF BENEFITS

Insurance Authorization/Release: By signature below, I hereby authorize Associates in Mental Health to release any and all information necessary concerning my diagnosis and treatment for the purpose of securing payment from my insurance company; and thereby authorize payment of the insurance benefits directly to Associates in Mental Health for any and all services rendered.

Medicare Authorization/Release: By signature below, I request that payment of authorized Medicare benefits by made on my behalf to Associates in Mental Health for any and all services rendered to me by their providers. I hereby authorize any holder of medical information about me to release to the Centers for Medicare and Medicaid Services and its agents any information needed to determine these benefits or the benefits payable for related services.

My signature below indicates that I have read and understand the foregoing information relative to my responsibility for the services provided as well as authorizing the release of medical information as required to process claims and benefits to which I am entitled.

Associates in Mental Health, SC

NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

This Notice describes the privacy practices of Associates in Mental Health, SC (AIMH) and all business associates with whom we may share your protected health and medical information. We provide the Notice of Privacy Practices to every patient we have a direct treatment relationship with after the September 23, 2013 effective date. This Notice is also available to any member of the public and is posted within our reception area. Every effort will be made to obtain a signed Receipt of Notice of Privacy Practices from each patient that will be kept on file. If the patient refuses to sign the form, it will be noted that the Notice was given but the patient refused to or could not sign the Receipt.

We understand that your medical or PHI ("protected health information") is confidential and we are committed to maintaining its privacy. Federal law requires that we provide you with this Notice of our legal duties and privacy practices with respect to your PHI. We are required to abide by the terms of this Notice when we use or disclose your PHI and are also required by law to notify you if you are affected by a breach of your secured PHI

HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION OR PHI ABOUT YOU

Treatment Purposes. Your PHI may be used and disclosed by those who are involved in your care for the purpose of providing, coordinating, or managing your health care treatment and related services. In addition, we may contact individuals through telephone, mail and email with appointment reminders and may utilize facsimile transmissions for specific authorizations and prescription refills through pharmacies. We may also disclose your PHI to other providers involved in your treatment.

<u>Payment Purposes</u>. We may use and disclose PHI to obtain payment for the treatment services provided. For example, we send PHI to Medicare, Medicaid, your health insurer, HMO, or other company or program that is to pay for your health care so they can determine if they should pay the claim. If it becomes necessary to use collection processes due to lack of payment for services, we will only disclose the minimum amount of PHI necessary for purposes of collection.

Health Care Operations. We may also disclose PHI to other health care providers when such PHI is required for them to treat you, receive payment for services they render to you, or conduct certain health care operations, such as quality assessment and improvement activities, and peer review. We may share your PHI with third parties that perform various business activities such as an outside billing company, appointment reminder service or electronic practice management vendor provided we have a written contract with the business that requires it to safeguard the privacy of your PHI.

Disclosure to Family, Close Friends and Other Caregivers. In an emergency situation, we may disclose PHI to those involved in a patient's care when the patient approves or, when the patient is not present or not able to approve, when such disclosure is deemed appropriate in the professional judgment of the practice or such as necessary. When the patient is not present, we determine whether the law requires the disclosure of the patient's PHI, and if so, disclose only the information directly relevant to the person's involvement with the patient's health care.

<u>Disclosures Required by Law.</u> As a behavioral health provider, it is our practice to adhere to more stringent privacy requirements for disclosures without an authorization. However, we may also use or disclose PHI about you without your prior authorization, subject to certain requirements and as required by law.

<u>Public Safety.</u> We may disclose your PHI if necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public. If PHI is disclosed for this reason, it will be disclosed to a person or persons reasonably able to prevent or lessen the threat, including the target of the threat. We may disclose PHI to a state or local agency that is authorized by law to receive reports of abuse or neglect.

Public Health. If required, we may use or disclose your PHI for mandatory public health activities to a public health authority authorized by law to collect or receive such information for the purpose of preventing or controlling disease, injury, or disability, or if directed by a public health authority, to a government agency that is collaborating with that public health authority.

Health Oversight Activities. We may use and disclose your PHI to state agencies and federal government authorities when required and as authorized by law, such as audits, investigations, and inspections. Oversight agencies seeking this information include government agencies and organizations that provide financial assistance to the program (such as third-party payors based on your prior consent) and peer review organizations performing utilization and quality control. We may use and disclose your PHI in order to assist others in determining your eligibility for public benefit programs and to coordinate delivery of those programs.

Judicial and Administrative Proceedings. We may use and disclose your PHI in judicial and administrative proceedings such as pursuant to a subpoena, court order, administrative order or similar process. Efforts may be made to contact you prior to a disclosure of your PHI to the party seeking the information.

Law Enforcement. We may use or disclose PHI to law enforcement to locate someone who is missing, to identify a crime victim, to report a death, to report criminal activity at our offices, or in an emergency.

Specialized Government Functions. We may review requests from US military command authorities if you have served as a member of the armed forces, authorized officials for national security and intelligence reasons and to the Dept of State for medical suitability determinations, and disclose your PHI based on your written consent, mandatory disclosure laws and the need to prevent serious harm.

Work-Related Injuries. We may use or disclose PHI to an employer to evaluate work-related injuries.

Medical Emergencies. We may use or disclose your PHI in a medical emergency situation to medical personnel only in order to prevent serious harm or to provide treatment in an emergency situation. Our staff will try to provide you a copy of this notice as soon as reasonably practicable after the resolution of the emergency.

<u>Deceased Patients</u>. We may disclose PHI regarding deceased patients as mandated by state law, or to a family member or friend that was involved in your care or payment for care prior to death, based on your prior consent. A release of information regarding deceased patients may be limited to an executor or administrator of a deceased person's estate or the person identified as next-of-kin. PHI of persons that have been deceased for more than fifty (50) years is not protected under HIPAA.

<u>Uses and Disclosures Required by Law - DO NOT APPLY TO PRACTICE</u>. We may disclose information as required by law for the following purposes although generally these do not apply to AIMH: marketing and research studies; fundraising; coroner or medical examiner and funeral directors for death certificate; disclosures to facilitate organ, eye and tissue donations.

USES AND DISCLOSURES REQUIRING YOUR WRITTEN AUTHORIZATION

For any purpose other than the ones described above, we will only use or disclose your PHI when you give us your written authorization. For instance, we will obtain your written authorization before we send your PHI to your employer or health plan sponsor, for underwriting and related purposes for a life insurance company or to the attorney representing the other party in litigation in which you are involved.

Highly Confidential Information. Federal and Illinois law requires special privacy protections for highly confidential information about you. Highly Confidential Information consists of PHI related to: psychotherapy notes; mental health and developmental disabilities services; alcohol and drug abuse services; HIV/AIDS testing, diagnosis or treatment; venereal disease(s); genetic testing; child abuse and neglect; domestic abuse of an adult with a disability; or sexual assault. In order for us to disclose your Highly Confidential Information for a purpose other than those permitted by law, we must obtain your written authorization.

YOUR RIGHTS REGARDING YOUR PHI

Right to Receive an Accounting of Disclosures. You have the right to request an accounting of disclosures that we have made of your PHI for purposes other than treatment, payment, and health care operations, or release made pursuant to your authorization. If you request an accounting more than once during a twelve (12) month period, we will charge you \$25. A request for disclosures must be made in writing to the Privacy Officer.

<u>Right to Inspect and Copy Your PHI</u>. You have a right to inspect or get a copy of your medical record file and billing records maintained by us. In some circumstances, we may deny you access to a portion of your records. If you desire access to your records, submit your request in writing to the Privacy Officer. A reasonable fee, not to exceed limits allowed under Illinois law, will be charged for the copying and mailing.

Right to Amend Your Records. You have the right to request that we amend PHI maintained in your medical record file or billing records. If you desire to amend your records, please submit your request in writing to the Privacy Officer. We are not required to agree with your request to amend.

Right to Request Restriction of Disclosures. You may submit a request in writing to the Privacy Officer to request a restriction or limitation on the use or disclosure of your PHI for treatment, payment or health care operations. We are not required to agree to your request unless the request is to restrict disclosure of PHI to a health plan for purposes of carrying out payment or health care operations, and the PHI pertains to a health care item or service that you paid for out of pocket. In that case, we are required to honor your request for a restriction.

Right to Receive Confidential Communications. We accommodate all reasonable requests to keep communications confidential and to allow you to receive your PHI by alternative means of communication or at alternative locations. A request for confidential communications must be in writing, must specify an alternative address or other method of contact and must provide information about how payment will be handled. The request should be submitted to the Privacy Officer. We will determine the reasonableness based on the administrative difficulty of complying with the request. We will reject a request due to administrative difficulty if no independently verifiable method of communication (such as a mailing address or published telephone number) is provided for communications; or if the requestor has not provided information as to how payment will be handled.

Authorization. We obtain written authorization from a patient or a patient's representative for the use or disclosure of PHI for reasons other than treatment, payment or health care operations. We will not, however, get an authorization for the use or disclosure of PHI specifically allowed under the Privacy Rule in the absence of an authorization. We do not condition treatment of a patient on the signing of an authorization, except disclosure necessary to determine payment of claim (excluding authorization for use or disclosure of psychotherapy notes); or provision of health care solely for the purpose of creating PHI for disclosure to a third party (pre-employment or life insurance exams). A specific written authorization is required to disclose or release mental health treatment notes, alcoholism treatment, drug abuse treatment or HIV/Acquired Immune Deficiency Syndrome (AIDS) information.

<u>Right to Revoke Your Authorization</u>. You have the right to revoke your written authorization, except to the extent that we have taken action in reliance upon it, by submitting your request in writing to the Privacy Officer.

Effective Date and Changes to this Notice. This Notice is effective September 23, 2013. We reserve the right to revise this Notice at any time. If we change this Notice, we may make the new notice terms effective for all PHI that we maintain, including any information created or received prior to issuing the new Notice. Any new Notice will be posted in the reception area of Associates in Mental Health.

Breach Notification. If there is a breach of unsecured PHI concerning you, we may be required to notify you of the breach, including what happened and what you can do to protect yourself.

Right to a Copy of this Notice. You have the right to a copy of this Notice which may be obtained by contacting the Privacy Officer.

For Further Information or Complaints. If you have questions, are concerned that your privacy rights have been violated, or disagree with a decision made about access to your PHI, you may contact our Privacy Officer who serves as the contact person for all issues related to the Privacy Rule. Complaints must be addressed to the attention of the Privacy Officer at Associates in Mental Health, 900 Main Street, Suite 580, Peoria, IL 61602; telephone (309) 637-4266. Written complaints may also be filed with the Secretary of the U.S. Department of Health and Human Services at 200 Independence Avenue SW, Washington, D.C. 20201. Complaints must name the practice, describe the acts or omissions that are the subject of the complaint, and must be filed within 180 days of the time you became aware or should have become aware of the violation. We will not retaliate or take any adverse action against you if you file a complaint.

Associates in Mental Health, SC.
