FACIALS

Infusion Facial

Corrective surface cleansing, skin analysis, exfoliation, steam, extractions if needed, skin specific mask, therapeutic corrective treatment, hydration, and protection

Advanced Facial

Corrective surface cleansing, skin analysis, exfoliation, lactic peel, steam, extractions if needed, therapeutic corrective treatment, mask, hydration and protection

CHEMICAL PEELS

Medium Peel

Infusion Facial plus skin specific medium chemical peel to exfoliate dead skin cells for a fresher look

Deep Peel

Infusion Facial plus skin specific deep chemical peel for greater skin benefits and smoother appearance

Upper or Lower Body Complexion Deep Peel

Surface cleansing with a glycolic wash, glycolic peel, TCA (trichloroacetic Acid) peel and lastly a glycolic body lotion on all treatment areas

DERMAPLANING

Dermaplaning gives the skin a smoother appearance by removing dead skin cells in addition to the fine vellus facial hair that can trap excess dirt and oil and leave the complexion looking dull. It also stimulates and rejuvenates skin tissue, reducing acne scarring, uneven pigmentation and fine line wrinkles. It can be used alone or in conjunction with other procedures such as facials or chemical peels

MICRODERMABRASION

Microdermabrasion uses crystals projected through a tube to mechanically exfoliate dead skin cell layers, stimulating collagen production for thicker firmer skin and acts as resurfacing for creating fresh radiant skin
