

PRE-PACK MACHINERY

The New Dually Butternut Squash Peeler

Pre-Pack Machinery's new Dually Butternut Squash Peeler satisfies today's Fresh-Cut Produce Supplier's need for higher production speed and efficiency. Its twin peeling spindles double machine production and only require a single employee's efforts.

The "Dually's" improved operational safety features help ensure your workers' safety when they're managing high-speed product loading cycles in a mechanically dense peeling system. With a butternut peeler, it is now possible for a single employee to peel 10 to 12 pieces per minute. [Call](#) us today!
