

PRE-PACK MACHINERY

Butternut Squash Splitter

The new Butternut Squash Splitter from Pre-Pack Machinery is the perfect complement to our Fruit Peeler and new Dually Butternut Squash Peeler, offering high-speed produce splitting with no employee exposure.

Your operation will benefit from both eliminating personnel and enhanced safety when this high-risk task is removed from the manual production area. The peeled produce enters the Splitter automatically and ejects at table top / conveyor height - split and ready for coring. Call us today!

Features That Make Our Squash Splitter Unique
